SYLLABUS

M.A. / M.Sc. Courses (CHOICE BASED CREDIT SYSTEM) 2020 -2021 onwards P.G. DEPARTMENT OF ANTHROPOLOGY CENTRE OF ADVANCED STUDY (CAS)

UTKAL UNIVERSITY, VANI VIHAR BHUBANESWAR

GENERAL REGULATION

Semester System course under the **Choice Based Credit System (CBCS)** will be effective from the academic year 2013-2014 onwards.

1) Course offered and duration of the course: Master of Anthropology (MA / M.Sc.) Two Year

Areas of Specialization:

- 1. Social-Cultural Anthropology
- 2. Biological Anthropology
- 3. Archaeological and Palaeocultural Anthropology
- 4. Development Anthropology
- 5. Population Anthropology (Not being offered for this academic session)

2) M.A. / M.Sc. (Anthropology) shall be spread over a period of Two Academic Years consisting of four semesters. The duration of each semester shall not be less than 16 weeks or more than 18 weeks.

3) Maximum period prescribed for completion of all the requirements for the award of the degree is two academic years from the date of admission failing which the candidate shall register afresh in the M.A. / M.Sc. Programme.

CHOICE BASED CREDIT SYSTEM

Choice Based Credit System is introduced from the Academic year 2013-2014 for M.A. / M.Sc. Course in Anthropology. There are four categories of courses.

- (a) **Core Courses** means fundamental papers which the student admitted to a particular Postgraduate Programme should successfully complete to receive the Post Graduate Degree in the concerned subject and which cannot be substituted by any other course;
- (b) **Core Elective Courses** means advanced papers and departmental choices that students can opt as a special paper under a particular department only especially for students wanting to receive Degrees in those specialization areas;
- (c) Allied Elective Courses means a course offered by the Department for students of other Departments which are considered as 'allied' subjects/discipline. For anthropology, subjects that are considered as allied are; Sociology, Psychology, Philosophy, Political Science, Economics, Business Administration, Geography, Ancient Indian History, Culture & Archaeology (AIHCA), History, Biotechnology, Botany, Zoology, Geology, Chemistry, Mathematics and Statistics***.

1. The distribution of Papers and Credit points are distributed as follows:

Paper / Credit	(A) Core Courses (C)	(B) Core Elective Courses (EC)	(C) Allied Elective Courses (AE)***	(D) Free Elective Courses* (FE)	(E) Audit Courses(AC)**	TOTAL
Paper	10	5	2	0		18
Total Marks	1000	500	200	100		1800
Credit	44 [8x4= 32 2x 6 (Practical)= 12]	24 [4x4=16 + 1x8 (Dissertation)=8]	12 (2x4=8)	04 (1x4=4)		82

***Free Elective Courses** means a course offered by the Department for students of ant PG Department across different Schools/Faculty.

**All papers offered under A, B, C and D may be taken as Audit Course (AC)

***Allied Elective Courses: Students from other allied departments specified above will choose any course from Core Papers of Semester I and Core Elective Papers of Semester III according to their choice.

Subjects of Allied Category:

Disciplines

Sociology, Psychology, Political Science and Philosophy-Biotechnology, Zoology, Botany and Chemistry-Ancient Indian History, Culture & Archaeology, History, Geography & Geology- C-1, C-2, C-3 & C-4, and AE-1C

Papers available

Sociology, Economics, Business Administration & Geography- CE-**D1, CE-D2,** Sociology, Economics, Geography, Statistics, Psychology & Mathematics-CE-**E1, CE-E2**

Semester	Core	Core Elective	Allied Elective	Free Elective	Total	
					Paper	Credit*
I	5 (5 X 100= 500)	0	0	0	5	22
II	5 (5 X 100= 500)	0	0	0	5	22
III	0	2	2	0	4	16
IV	0	4 (2x4 credits = 8) (1Practical x6 credit; and 1 Fieldwork & Dissertation x 8 credit)	0	1	4	22
Total Papers	10	6	2	1	18	82
Total Credits	44	24	08	04		82

2. Semester wise distribution of papers/credits

Theory = 4 credits, Practical = 6 credits & Dissertation (1 paper) = 8 credits = 100 marks

Mode of Evaluation & Pass Marks for Theory and Practical/ Dissertation or Fieldwork Based Papers

Mid-Semester Examination: 30% End- Semester Examination: 70%

For theory paper the pass mark is 30 out of 100 (09 out of 30 in mid-term and 21 out of 70 end-term examinations) and similarly in case of papers on practical / dissertation or fieldwork, the pass mark is 40 out of 100 (12 out of 30 in mid-term and 28 out of 70 end-term examinations).

3. Title/name of papers:

Semester	Types of Papers	Code number of the Paper	Name of the Paper (Course Titles)	Marks	Hours of Teaching	Credits
		ANTH-C-1	Social and Cultural Anthropology	100	48	4

Head Department of Anthropology

SEMESTER-I

CORE: 5 PAPERS= 20 CREDITS = 500 MARKS

*All Core Papers in Semester-I are also available as Allied Elective Papers for students from specified allied disciplines.

SEMESTER – I ANTH-C-I SOCIAL AND CULTURAL ANTHROPOLOGY Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours (Questions are to be set covering first four units)

- Unit- I:Aim and scope of Social and Cultural Anthropology, History and Development; Major Areas of Interest: Ethnography, Ethnology, Folklore, Economic Anthropology, Political Anthropology, Psychological Anthropology, Linguistic Anthropology, Medical Anthropology, Urban Anthropology, Visual Anthropology, Applied and Action Anthropology.
- **Unit-II:** Culture: Concept, Definition; Nature of Culture, Characteristics of Culture; Culture Change: Innovation, Diffusion, Acculturation, Assimilation, Integration, Cultural Adaptation; Enculturation and Socialization, Transculturation; Culture Shock and Culture Conflict cultural relativism, Cultural Pluralism and World-View.

Religion: Concept, Origin, Functions; Types: Animism, Animatisms, Bongaism, Fetishism, Totemism, Manaism, Magic, Witchcraft, Sorcery; Shamanism, Taboo, Sacred and Profane.

Unit III: Marriage Concept, function and Definition of Marriage; Types of Marriage: Endogamy, Exogamy, Polygamy and Monogamy, Polygyny and Polyandry, Preferential and Prescriptive Marriages, Levirate and Sorrorate, Cross-cousin. Marriage, Parallel Cousin Marriage, Uncle-Niece Marriage; Marriage Payments: Bride Wealth/Bride; Price and Dowry; Divorce; Couvade.

Concept and Definition of Family; Types of Family (by structure): Nuclear/Elementary/Simple Family, Compound Family, Joint family, Extended Family, (by residence), Patrilocal Family, Matrilocal Family, Neo local Family, Virilocal, Uxorilocal, Ambilocal, Amitolocal, Partipotestal Family, Stem Family; Household; Functions of Family.

Kinship: Kin-group: Consanguinal,, Affinal, Ambilateral, Unilateral, Bilateral, Agnatic, Uterine, Patrilateral, Matrilateral; Kin Terms: Classificatory, Descriptive; Descent: Unilineal, Bilateral, Double Descent, Filiations; Patrisib, Matrisib, Patriclan, Matriclan, Patriarchy, Matriarchy; Ritual Kin, Fictitive Kin; Kinship Behavior: Avoidance, Joking, Teknonymy; Incest;, Alliance Theory.

Unit IV: Economic Organization: Principles of production, distribution, consumption in huntinggathering, pastoral, swidden/ shifting, agricultural and Industrial communities; Reciprocity and Redistribution; Barter; Trade and Market, Ceremonial Exchange: Kula Ring and Potlatch. Usufruct Rights;

Political Organization: Concept; State; Stateless Society; Band, Segmentary Society; Primitive Government: Forms and Functions; Law and Justice; Customary Law; Social Control: Forms and Agencies; Social Sanction: Negative and Positive;

Unit V: Assignments, Quiz, Oral test/presentation, Book readings based on the above units as prescribed by the concerned teacher.

SEMESTER – I ANTH-C-2 BIOLOGICAL ANTHROPOLOGY Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours (Questions are to be set covering first four units)

Unit - I

Aims and Scope of Biological Anthropology; Historical development, Emerging trends Biological Anthropology. Application of Biological Anthropology in the service of the Mankind.

Theories of organic evolution: Lamarckism, Darwinism, Synthetic theory; Principles of Evolution: Convergence, Divergence, parallelism, adaptive radiation, speciation, irreversibility; Origins of Man: Theories of monogenesis and polygenesis, Multiregional vs. out of Africa evolution model.

Unit – II

Primatology: Living Primate: Characteristics, distribution, and classification of order primate; Primate Behaviour: Social and Reproductive behaviour.

Earliest primates of Oligocene, Miocene and Pliocene: Aegyptopithecus, Propliopithecus, Dryopithecus and Proconsul;

Stages of Human evolution: Processes of hominization and emergence of hominids; Erect posture and Bi-pedalism. Characteristic features and cultural evidence of (a)Early hominoids : Ramapithecus, Australopithecine, Homo habilis; (b) Later hominids: Homo erectus (Asia, Europe and Africa), Homo-sapien Neanderthalensis(Classic/Conservative), Homo-sapien-sapiens (Cro-Magnon, Chancelade, Grimaldi, Offnet,)

Unit – III

Human Diversity: Living Human Populations and Human Diversity: Concept of Race, Criteria for Racial Classifications: Metric, Non-metric, Dermatoglyphics and Genetic; Distribution and Characteristics of Major races of the world: Caucasoid; Negroid; Mongoloid; Racial classifications by Hooton; Coon, Garn and Birdsell; Racial classification of Indian Population by Risley, Guha and Sarkar; Relevance of race in 21st Century.

Unit-IV Human Genetics: meaning and scope: Mendel's Law of Inheritance and its application to Man; Patterns of inheritance of Autosomal (dominant, recessive and co-dominant) and sex-linked traits, Lethal and sub-lethal genes; modifying genes; suppressor genes. Methods of studying heredity: Twin method, Pedigree method and Sib- pair method; Heritability estimate; Polygenic Inheritance in Man. Human Cytogenetics: Chromosome Karyotypes, Banding Techniques.

Population Genetics: Population Genetics: Hardy-Weinberg Law and its application, Genetic Polymorphism: Balanced and Transient; Natural Selection; Consanguinity and Inbreeding coefficient, Genetic Drift.

Genetic Variation: ABO blood group, Rh factor, MN blood group, Kel and Duffy blood group, ABH Secretor factor; Abnormal Haemoglobin :Sickle cell anaemia, Thalassemia;G6PD deficiency, Distribution of selected genetic traits in Indian Populations.

Unit-V

Assignments, Quiz, Oral test/presentation, Book readings based on the above units as prescribed by the concerned teacher.

SEMESTER – I ANTH-C-3 ARCHAEOLOGICAL ANTHROPOLOGY Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours (Questions are to be set covering first four units)

- Unit-I Archaeology as Anthropology: Definition and Scope of Archaeological Anthropology; Relationship of Archaeological Anthropology (Prehistoric Archaeology) with Natural and Biological Sciences.
 Geological Framework: Major Geological Stages (Tertiary, Quaternary, Pleistocene and Holocene) Glacial and Interglacial periods of Europe and India.
 Temporal framework: Concept of Chronology / Dating: Relative Dating Methods (Study of Stratigraphy, Pollen Analysis, Paleontology); Absolute Dating Methods (Radiocarbon, Potassium-Argon, Thermolumniscence).
- Unit-II Cultural framework: Concept of Three Age System (Stone, Copper/Bronze and Iron Ages): Stone Age Culture Chronology.
 Lower Palaeolithic Cultures of Africa and South Asia (India): Pebble tool Culture in Africa and India (evidences from Olduvai Gorge and Soan Valley); Acheulian Culture (evidences from Africa and Peninsular India).
 Mesolithic Cultures of Europe and South Asia (India): Mesolithic Cultural traditions in Europe (Azilian, Tardenoisean, Maglemosean, Kitchen Midden); Mesolithic Cultures in India (Adamgarh, Bagor, Birbhanpur, Bhimbetka, Chopani Mando, Mahadaha, Sarai Nahar Rai, Tilwara).
- Unit-III Neolithic Culture of West Asia and South Asia (India): Neolithic Culture of West Asia (evidences from Jericho; Jarmo, Catal Huyuk, Shanidar);
 Neolithic Culture of Indian Subcontinent (evidences from major sites of Northern, Southern, Eastern and Northeastern India)
- Unit-IV Proto-historic Cultures of South Asia (India): Chalcolithic Cultures of India Central Indian Chalcolithic; Deccan Chalcolithic; Indus/Harappan Civilization: Origin, Extent, Distribution, Salient features, Causes of decline and Chronology of the Indus Civilization. Megalithic Cultures India: Concepts, Types of megaliths (Cairn Circle, Dolmen Cist, Menhir, Sarcophagi, Topical)
- **Unit-V** Assessment / evaluation/ quiz/ oral test /presentation/term paper as prescribed by the concerned teacher.

SEMESTER – I ANTH-C-4 RESEARCH METHODOLOGY AND STATISTICS Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours (Questions are to be set covering first four units)

- **Unit-I** An Appraisal of Methodological Perspectives in Anthropology;
 - i) Holistic Approach in Anthropology
 - ii) Fieldwork and Fieldwork Traditions in Anthropology
 - iii) Comparative Method
 - iv) Synchronic and Diachronic Approaches in Anthropology

v) Ethnoscientific method in Anthropology: a)Emic and b) Etic Approaches

Understanding and Explanation in Social Anthropology; Anthropological Approaches to the study of Primitive Societies, Complex Societies and Civilizations.

Unit-II Concept, Hypothesis, Inductive and Deductive Logic, testing Hypothesis; Theory and Empiricism in Social Anthropological Research; Model-Building in Anthropology Research Design, Types: Exploratory, Descriptive, Experimental and Evaluative studies;

Methods of Comparison in Anthropology: Illustrative Comparison, Complete Universe Comparison, Hologeistic Comparison by Statistical Sampling; Restudy in Anthropology;

Monitoring and Evaluation. Report writing.

- **Unit-III** Survey Method in Anthropology: Design and Uses of Survey, Limitations. Types of Sampling: Random Sampling, Systematic Sampling, Purposive Sampling, Stratified and Multistage Sampling, Area and Quota Sampling. Field Technique:
 - i) Observation Technique: Participant and Non-participant;
 - ii) Interview Technique: formal and Informal, Key-Informant Interview; Interview Guide,
 - iii) Schedules and Questionnaires;
 - iv) Life-History and Case Study Method and Extended Case-Studies;
 - vi) Audio-Visual Recording
 - vii)Projective Techniques

Rating and Ranking Scales – Bogardus Social Distance Scale, Sociometry and sociogram, Lickert Summated Scale and Guttman Scalogram Analysis; Techniques in

Visual Anthropology; PRA & RRA techniques. Techniques of Analysis: Content analysis, Discourse analysis and Narratives.

 Unit-IV Qualitative and Quantitative studies in Anthropology; Social and Bio-Statistics; Data analysis: Frequency Distribution and Graphical Representation: Frequency Polygon and Histogram; Measurement of Central tendencies: Mean, Mode and Median; Measurement of Dispersion- Mean Deviation, Standard Deviation, Standard Error; Test of Significance: Chi-Square Test, T-test, Z-Test, ANOVA; Co-efficient of Correlation and Regression.

Unit-V Assignments (Use of SPSS, Internet and Bibliography writing), Quiz, Oral test/presentation, Book readings based on the above units as prescribed by the concerned teacher.

SEMESTER – I ANTH-C-5

GENERAL PRACTICAL: BIOLOGICAL AND FORENSIC ANTHROPOLOGY Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 6 hours

(Questions are to be set covering first four units)

 Data handling : Analysis of demographic and health data from Household Census, NFHS etc. Construction of population pyramid and estimation of sex ratio etc. Preparation of Schedules. (15)

2. (A) Osteology

Each student has to identify and draw with levelling different parts of the following human bones: a) Skull, b) Mandible, c) Clavicle, d) Scapula, e) Humerus, f) Radius &Ulna g) Femur, h) Tibia-fibula, I) a Vertebra. (05)

(B) Craniometry: Each student has to study two human crania / mandible and record the following measurement. The students are to be familiar with different landmarks of the skull and mandible, instruments and methods of taking measurement.

1) Maximum Cranial Length; 2) Nasion - inion Length; 3)Cranial Height; 4) Max Cranial breadth; 5) Nasion-Prosthion height; 6) Bio-zygomatic breadth; 7) Minimum frontal breadth; 8) Nasal Length 9) Nasal Breadth 10) Glabella inion Length 11) Palatal Breadth 12) Palatal Length 13) Breadth of Ramus 14) Length of Ramus 15) Angle of Mandible 16) Facial Angle. (10)

(15)

Each student has to draw Sagital contour of 2 crania in F.H. Plane and construct: i) Facial Profile Angle ii) Quadrangle of Skull (05)

3. Forensic Anthropology

- a) Determination of age and sex from skull and mandible.
- b) Examination of Blood Stain

- c) Development of Latent print
- d) Identification of finger ball patterns & determination of main-line formula (Both hands of 5 individuals) or Sole Print.
- e) DNA finger printing (Demonstration through photograph/drawing)

4. Nutritional Anthropology: The students are to be taught on the following aspects of Nutritional Anthropology. (15)

Determination of Nutritional Status:

- a. Each Student is to record dietary intake of household members belonging to three households and calculate intake of different nutrients consumed.(24 hr recall /weighing method)
- b. Nutritional Anthropometry (For assessment of Grades of Malnutrition)
 (i) Wt for age (ii) Ht for age(iii) Wt /Ht (iv) Mid Arm Circumference
- c. Calculation of Body Mass Index and Conicity Index
- d. Calculation of Total Body Fat

Measurement of Sub-Cutaneous fat: Tricep. Bicep. Sub-scapula

5. Somatotyping: Each student has to take somatotype measurement of subjects as prescribed. (05)

6. Serological, Haematological and Physiological test

The students are to perform the following serological and bio-chemical tests on five persons and record the results. They are to be familiar with details of each experiment such as aim of the experiment, apparatus required, chemicals needed, procedure, precaution and results of the experiment.

- i) ABO & Rh Blood group typing
- ii) Hemoglobin estimation (Sahalis method)
- iii) Blood Pressure
- iv) Blood Sugar estimation.
- v) Colourblindness test

7. Viva-voce and Record

Maintaining proper **Laboratory Record** is compulsory. Each student has to submit a proper and complete laboratory record duly signed by the teacher who is assigned to teach this aspect. The students are required to submit their Laboratory Records at least five days before the conduct of practical examination. Defaulters of the same neither are allowed to appear the practical examination nor entitled to get the marks assigned to Practical Records.

SEMESTER-II

CORE: 5 PAPERS= 20 CREDITS = 500 MARKS

*All Core Papers in Semester-I are also available as Allied Elective Papers for students from specified allied disciplines.

SEMESTER – II ANTH-C-6 INDIAN SOCIETY AND APPLIED ANTHROPOLOGY Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours (Questions are to be set covering first four units)

- **Unit I:** Approaches to study Indian Civilization Composition of Indian society:; geographic, Linguistic and religious, ethnic and racial Divisions. Social stratification (Caste, Scheduled Caste, Scheduled Tribe, Denotified tribes, nomadic and semi nomadic tribes and castes, religious minorities, PVTGs), Caste system in India;
- Unit II: Early Indian Anthropologists and their contributions to the study of Indian Civilization: McKim Marriot, Milton Singer, Verrier Elwin, M.N Srinivas, L.P.Vidyarthi; N.K.Bose S.C.Dube, D.N.Majumdar, G.S.Ghurye.
- Unit III: Village Communities their Types, Integration and Extension; Urban Communities: Structure and Types; Cultural Role of cities; Concept of Jajmani System, Dominant Caste, Folk-Urban and Tribe Caste contrast and continuum Sacred Complex, Nature-Man-Spirit Complex; Little and Great Traditions; Universalisation, and Parochialisation, Social and Cultural change in modern India – Sanskritization, Modernization, Westernization, Urbanization and Industrialization, Globalization;
- **Unit IV:** Unresolved Issues and problems of Development of STs (Forest, land alienation, Indebtedness, Poverty, Illiteracy, Displacement, Role of Anthropology in Tribal and Rural Development, Constitutional provisions and safeguard measures for SCs and STs; Development Strategies, Policies, Plans and Programmes for Tribal Development. Community Development Programmes in India;, Tribal Movements in India, Mandal Commission; Dhebar Commission, Bhuria Committee Report; PESA Act.
- **Unit-V:** Assessment / evaluation/ quiz/ oral test /presentation/term paper as prescribed by the concerned teacher.

- **1.** Bailey, F.G. 1960. *Tribe, Caste and Nation: A Study of Political Activity and Political Change in Highland Orissa*, UK: Manchester University Press.

SEMESTER – II ANTH-C-7 ECOLOGICAL ANTHROPOLOGY Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours

(Questions are to be set covering first four units)

UNIT-I

Ecological Anthropology: Definition and Scope; History and Development of Ecological Anthropology; Current approaches and Perspectives in Ecological Anthropology : Cultural Ecology, Population Ecology, Systems Ecology, Ethno Ecology, Palaeo Ecology, Social Ecology and Ecology and Evolution, political ecology, Historical ecology, Landscape ecology.

UNIT-II

Ecology and Ecosystem: Definition of Ecology; Ecosystem: Concept, meaning, types and components; Adaptation and Evolution : Bio-Cultural Adaptation of Man to Heat, Cold and High Altitude; Eco-niche; Energetic and Human Society: Sources of Energy, Nutritional Value of Foods, Food Chain and Web, Flow of Energy. Concept of Carrying Capacity; Ecological Equilibrium, Ecological Factors influencing Population Growth and Regulation, Population Growth and Environmental Degradation

UNIT-III

Culture Environment Relationship; Environmental Determinism and Environmental Possibilism, Concept of Culture Core and Cultural Area, Cultural Ecology and Concept of Ecosystem; Culture as a Master Variable; Ecological Ethnography of Hunter-Gatherers, Nomads and pastoral, agricultural Communities; Application of Ecosystem in Anthropology

UNIT-IV

Concept of Ecologically/Environmentally Sustainable Development and Common property Resources; Environmentalism: Environmental Movements, ; Effects of Development Projects and Processes on Environment. Indigenous Environmental Knowledge Systems and Development. Environmental Policy in India; Conservation Strategies: JFM and MFP

UNIT-V Assignment:

A book review of 20 marks of any classical Anthropology book has to be submitted by the student before the end semester examination.

- **1.** Bennet, J.W. The Ecological Transition
- 2. Bhss, L.C, Heal, Tundra Ecosystem
- O.W. Moore,J.
- 3. Bresser Human Ecology
- 4. Butzer, Karl Archaeology as Human Ecology
- 5. Chapple,D.(ed) Biological Foundation of Individuality and Culture
- 6. Brock,T.H. Primate Ecology
- 7. Eckstein Food, People and Nutrition
- 8. Eckstein, P.R. & Ehrlick, Avne, Holdren, J.P. Human Ecology
- 9. Greenwood & Edwards Human Environments & Natural Systems
- 10. O. Hardesty, D Ecological Anthropology

- 11. J. Owen Jones, and Paul Rogers Human Ecology and the Development of Settlements Jorgenson, J.G. Biology and Culture in Modern Perspective
- 12. Kafman, PB./J.D. Lacroix Plant, People, Environment
- 13. Krebs, C.J. Ecology(Latest edition)
- 14. Mortwitz, H.J. Foundations of Bio-energetics
- 15. Odum, O.P. Ecology
- 16. Odum, E.P. Fundamentals of Ecology
- 17. Solomon Katz(ed) Biological anthropology(Scientific American)
- 18. Sussman, R.W Primate Ecology Watts Johnston & Lasker Bio-social Interrelation in Population Adaptation
- 19. Yadab, C.S. Contemporary City Ecology
- 20. Weiner, J. Harrisson, G.A, Barricndt, Tanner, J.M., Human Biology

SEMESTER – II

ANTH-C-8

ANTHROPOLOGICAL THOUGHT

Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30)

Duration of Examination: 4 hours

(Questions are to be set covering first four units)

UNIT –I

Emergence of Anthropology as an Empirical Discipline; Anthropology as a Social Science; Natural Science and Natural History in Anthropology; Scientific and Historical Methods in Anthropology

Man's Place in Nature; Biological Versus Cultural Evolution: Nature versus Nature; Primate Kin and Human Kinship; Anthropology and the Concept of Race

UNIT-II

Co-operation and conflict in Social Evolution: Social Darwinism and Marxism; Unilinear, Multliinear and Differential Evolution; Energy and Evolution;

Evolutionism and Diffusionism; Functional, Structural and Neo-Structural approaches in Anthropology, Post-Structuralism and Post Modernism

UNIT-III

Language, Thought and Culture; Culture Dynamics: Language as a System, Socio-Linguistics, Language and Social Structure

Substantive and Formalistic Approaches; Ecological factors influencing population growth and regulation, Population growth and Environmental degradation

UNIT-IV

Individual, Culture and Society; Personality and Culture; Personality and Social Structure; Configuration of Culture; Methods in Culture and Personality Research

UNIT-V Assignment:

A book review of 20 marks of any classic work in anthropology has to be submitted by the student before the end semester examination.

Suggested Readings / Books Recommended:

1. Montagu. M.F. Ashley, 1957, Anthropology and Human Nature, Boston

- 2. Manners, Robert A. and Kaplan David, 1969, Theory in Anthropology, London: Routledge and Kegan Paul
- 3. M.F.Ashley Mantagu, 1974, Frontiers of Anthropology
- 4. W. La. Barre The Human Animal
- 5. N.A. Chagam & W.Irons (eds)Evolutionary Biology and Human Social Behaviour
- 5. C. Darwin The Descent of Man
- 6. E.E.Evans, Pritchard, 1951, Social Anthropology, Glencoe 7. R.Fox **Biosocial Anthropology** 8. A.C. Haddon Theoretical Anthropology 9. L. Hodder Reading the Past 10. Frederick S. Hulse Man and Nature: Studies in the Evolution of Human Species 11. C. Kramer Ethno-archaeology 12. Annemarie de Wail, Malefit Images of Man 13. Malthus, Hxley Osborn The Essays on Production One Hundred Years of Anthropology 14. T.K. Penninman 15. T.S. Slotkin Readings in Early Anthropology 16. G.W. Stocking(Jr.) Race, Culture and Evolution 17. F.W. Voget History of Ethnology
- 18. R.A.Watson & P.J. Watson Man and Nature: An Anthropological Essay in Human Ecology Social Biology

19. J.Wilson

SEMESTER – II

ANTH-C-9

MEDICAL ANTHROPOLOGY Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) **Duration of Examination: 4 hours**

(Questions are to be set covering first four units)

UNIT-I

Medical Anthropology: Central concepts, Historical development and Scope; Theoretical perspectives in Medical Anthropology - Medical ecological theory, Cultural interpretive theory and Critical Medical Anthropological theory

UNIT-II

Medical Systems and Medical Syncretism: Medical systems in Indigenous and Precapitalist State Societies; Ethno-medicine and medical pluralism; Biomedical hegemony in the context of medical pluralism; An outline of different medical systems in India; Ethno-biology and Ethnopharmacology.

UNIT-III

Disease Transition; Epidemiology of common communicable and non-communicable diseases in World and India; National Health Policy- 2017, National Health Mission, National Nutrition Policy, Occupational health problems, Problems of the Aged. Effects of environmental hazards on human health.

UNIT-IV

Social body and health; Stress, and disease; Social and ethical issues medical biotechnology and new reproductive technology and other advances in science & technology. Medical anthropology of Pharmaceuticals; Medical anthropology and Public Health.

UNIT-V

Assignments, Quiz, Oral test/presentation/seminar, Book readings based on the above units as prescribed by the concerned teacher.

Suggested Readings / Books Recommended:

- 1. Foster G.M. and B.G. Anderson .1978. *Medical Anthropology*. New York: John Wiley and Sons.
- 2. Good Byron.1994. Medicine, Rationality and Experience. Cambridge, England: Cambridge University Press.

SEMESTER – II ANTH-C-10 GENERAL PRACTICAL: PREHISTORIC ARCHAEOLOGY AND MUSEOLOGY Full Marks: 100 (Prehistoric Archaeology: 50 + Museology: 50) (Mid Semester 30+End Semester 70) **Duration of Examination: 6 hours** (Questions are to be set covering all units)

The general practical shall include the following components with distribution of marks indicated against each section:

SECTION (A): PREHISTORIC ARCHAEOLOGY

- 1. 1:1 drawing and description of given Prehistoric lithic tools / artifacts 20marks
- 2. One elective question from Prehistoric Archaeology pertaining to stone tool technologies and major typologies of stone tools. 15marks
- 3. Identification of 5 types of tools/artifacts and their probable functions
- 4. Practical Records 05marks 05 marks

05marks

5. Viva-Voce

SECTION (B): MUSEOLOGY

1. Not to scale drawing, labeling, description and conservation of given museum specimens

		20marks
2.	One elective question from Museology pertaining to perspectives of Museology and	the basic
	principles of museum.	15marks
3.	Identification and function/use of the given museum	05marks
4.	Practical Records:	05marks
5.	Viva-Voce	05marks

20marks

PREHISTORIC ARCHAEOLOGY: The students are to be taught on the following aspects of **Prehistoric Archaeology** pertaining to stone tool technologies and typologies of tools of early human industries as:

- (a) Prehistoric Technology: Manufacturing techniques Palaeolithic, Mesolithic and Neolithic industries.
- (b) Tool Typology of Early man: Study of major stone tool types of the Palaeolithic, Mesolithic and Neolithic industries.
 Each student has to an an advecting mention of 15 member from the share exactly of the student has the stu

Each student has to answer one elective question of 15 marks from the above aspects of

Prehistoric Archaeology.

The students are required to identify, draw and undertake metrical analysis of lithic artifacts belonging to different cultural periods. They are to describe the nature of (core/flake/ blades) tool types, manufacturing techniques, (flaking, retouching, grinding, polishing etc.), probable functions, effect of rolling, weather effect and patina, condition of the working edges, etc using the **Attribute Analysis Form** supplied by the Department.

Each student has to study:

b.

a.	Palaeolithic tool	- 05 numbers (Choppers, Hand axes, Cleavers and Scrapers).
----	-------------------	--

Mesolithic tool - 10 numbers (Non-geometric and Geometric microliths).

c. Neolithic tool - 05 numbers (Axe, Adze, Chisel, Ring stones)

Maintaining proper **Laboratory Record** is compulsory. Each student has to submit a proper and complete laboratory record duly signed by the teacher who is assigned to teach this aspect. The students are required to submit their Laboratory Records at least five days before the conduct of practical examination. Defaulters of the same neither are allowed to appear the practical examination nor entitled to get the marks assigned to Practical Records.

MUSEOLOGY: The students are to be taught on the following aspects of **Museology** pertaining to perspectives of Museology and the basic principles of museum:

(a) **Museology:** Meaning and scope; History and development of museums in World; Types of Museums; Role of Anthropological and Archaeological museums in education.

(b) **Museum Administration:** Modes and ways of acquisition of museum specimens; Principles of display and arrangement in museum; Conservation and preservation of museum materials and antiquities.

Each student has to answer one elective question of **15 marks** from the above aspects of Museology.

The students are required to learn the basic principles of museum, documentation, labeling, and display of museum specimens. They are to learn the techniques of conservation and preservation of museum specimens. Each student has to apply the above methods, whichever is applicable, on specimens of following materials.

Composition:

- a. Plant remains: Wood, Bamboo,
- b. Fibre: Cloth / Linen.
- c. Metals: iron, brass, copper, silvers.
- d. Animal remains: Bone, antler, horn, leather/ hide

Maintaining proper **Laboratory Record** is compulsory. Each student has to submit a proper and complete laboratory record duly signed by the teacher who is assigned to teach this aspect. The students are required to submit their Laboratory Records at least five days before the conduct of practical examination. Defaulters of the same are neither allowed to appear the practical examination nor entitled to get the marks assigned to Practical Records.

SEMESTER – III

CORE ELECTIVE:2 PAPERS = 8 CREDITS = 200 MARKSALLIED ELECTIVE:3 PAPERS= 12 CREDITS = 300 MARKS

TOTAL:

5 PAPERS=20 CREDITS = 500 MARKS

*All Core Elective Papers in Semester-III are also available as Allied Elective Papers for students from specified allied disciplines.

SEMESTER – III ANTH-CE-A1 ANTHROPOLOGICAL THEORIES ON CULTURE Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours (Questions are to be set covering first four units)

- **Unit I:** Science and Humanity in Social Anthropology; Humanistic Tradition and Social Anthropology; Scientific Method in Social Studies.
- **Unit II:** Outline of Approaches to the study of culture: Classical Evolutionism and Neo- Evolutionism.
- **Unit III:** Diffusionism: British, Austro-German and American; Functional Approaches to the study of Culture (Mallinowski).
- **Unit:IV:** Configurational Approach to the study of Culture (S.F.Nadel) Culturological approach to the study of culture (Leslie White)
- **Unit:V** Assessment/ Evaluation

SEMESTER – III ANTH-CE-A2 PSYCHOLOGICAL ANTHROPOLOGY Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours

(Questions are to be set covering first four units)

UNIT-1

Concept and Scope of Psychological Anthropology; Psychological Anthropology and Other Behavioural Sciences; History and Development of Psychological Anthropology; Major Approaches in Psychological Anthropology: Ethnopsychology, Psychoanalytic and Psychiatric Anthropology.

Individual, Society and Culture; Personality and Culture; Personality Formation and Determinants; Swaddling, Enculturation and Socialization Construct: Basic Personality Structure, Model Personality, Status Personality, Overt and Covert Personality, Ideal and Manifest personality.

UNIT- II

Personality and Human Nature; Functions of Personality, Methods in Culture Personality Research;

Gestalt Psychology and Configuration of Culture; Ethos, Eidos, Genius, Themes, Counter-Themes, Values and World Views, National Character and Culture Pattern Studies.

UNIT-III

Psychology of Culture Change; Diachronic and Synchronic Study of Culture and Personality; Personality as an Explanatory Concept in Social and Cultural System Approaches to Childhood, Socialization and Cultural Context, Cross-Cultural Practices of Child Rearing, Socialization for deviance and conformity, Collective Child Rearing, Later Life Socialization, Rites de Passage, Ego Development and Superego control

UNIT -IV

Inter-generational Change in Group and Social Character; Psychology of Revitalization of Culture Movements;

Cultural psychiatry: Illness, Ecology and Epidemiology; Defence against stress, social causes of Suicide.

UNIT-V

A book review of 20 marks of any classical Psychological Anthropology book has to be submitted by the student before the end semester examination.

Suggested Readings / Books Recommended:

1. Benedict, R. Patterns of cultures 2. Benedict, R. The Chrysanthemum and the Sword The Twice Born 3. Carstair,M. 4. Du Bois, C The People of Alore 5. Erikson, E. Childhood and Society 6. Goere, G. The Himalayan Village 7. Halowell ,A.T. Culture and Experience 8. Honigmann,J.J. Culture and Personality 9. Hsu,FL.K Psychological Anthology 10. Kaplan, D.K(ed) Studying Personality Cross Culturally 11. Kardiner, A (ed) Psychological Frontiers of society Personality in Nature, Culture and Society 12. Kluckhohn, C.Etal(eds.) 13. Kroeber, A.L (ed) Anthropology Today 14. Linton. R. The Cultural Background of Personality 15. Mead and The Study of Culture at a Distance 16. Wallace, AFC Culture and Personality Thinking Through Cultures 17. Shweder, R.A Personality in Culture 18. Honigmann, J.J 19. Bock, Philip K. Communities in Psychological Anthropology

SEMESTER – III ANTH-CE-B1 HUMAN BIOLOGY Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours

(Questions are to be set covering first four units)

Unit-I

Human Biology: Meaning and Scope; Structure and Function of Human Cell; Cell Cycle. Perspectives on Nutritional Anthropology, Nutritional Requirement in Man: Carbohydrate, Protein, Fat, Minerals and Vitamins; Carbohydrate and Lipid Metabolism in Man; Digestive system.

Unit-II

Human Anatomy in Connection to Evolution: Skeletal and Muscular System;

Human Physiology in Connection to Evolution: Composition and Function of Blood; Cardiovascular System; Respiratory System, Nervous System; Senses, Endocrine System and Reproductive System.

Unit-III

Concept of Human Growth; Stages of Human Growth: Prenatal (Fertilization, stages of embryonic and fetal development), Infancy, Childhood, Adolescence; Methods of studying Growth – Longitudinal, Cross-sectional, Mixed longitudinal; Growth Curve; Secular Trends in Growth; Senescence.

Factors affecting Growth: Genetic, Hormonal & Environmental.. Analysis of Human Physique and Body Composition- Sheldon, Parnell and Heath- Carter methods of Somatotyping.

Unit-IV

Human Population Biology and the IBP Programme. Human Adaptation: Human Adaptation to Heat, Cold, High altitudes and Nutrition

Bio-chemical Variation in Human Population: Serum Proteins-Haptoglobins, Transferin, Immunologist; Red cell enzymes-G6PD, Phospoglucomutase, Lactate dehydrgenase

Unit-V

Assignments, Quiz, Oral test/presentation, Book readings based on the above units as prescribed by the concerned teacher.

- 1. Bogin, B. 1988. Patterns of Human Growth. Cambridge University Press, Cambridge.
- 2. Mader, S.S. (6th Ed.). 2000. Human Biology. Mc Graw Hill, New Delhi.

SEMESTER – III ANT-CE-B2

DEMOGRAPHIC ANTHROPOLOGY: MEANING & METHODS OF STUDY Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours

(Questions are to be set covering first four units)

Unit-I

Definition, Basic Concepts and Relevance. Relationship between Demography, Population Studies and Anthropology. Paleodemography or Prehistoric Demography. Sources of demographic data (Census, Vital Statistics, UN reports etc)

Unit-II

Population Growth Theories: Pre-Malthusian Theory- John Grant, Malthus Theory, Theory of Optimum Population, Biological Theories, Theory of Demographic Transition. Theoretical challenges: Culture, Political Economy, Gender, and Institutions in relation to Demographic Phenomena

Unit-III

Measures of population composition, distribution and growth, Measures of fertility, Measures of Mortality, Measures of Migration and Measures of Nuptiality. Population structure: Isonomy and Kinship Model, Fertility and Mortality Differentials, Intensity of Natural Selection

Unit-IV

Anthropology of small populations (Africa:Dobe!Kung, Himalaya, Andaman & Nicober, PVTGs) LGBT community, Refugees and Exile, Aging population.

National Population Policy and Family Planning Policies in India, One child policy of China and Issue of Population Decline in the Developed Countries.

Unit-V

Preparation of demographic report on tribes of India/Odisha/Quiz/Tests etc

Suggested Readings

SEMESTER – III ANT-CE-C1 PRINCIPLES AND METHODS IN PREHISTORIC ARCHAEOLOGY Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours

(Questions are to be set covering first four units)

- **UNIT-I:** Meaning and perspectives: Definition, scope and assumptions of Archaeology, History and development of Archaeology, Kinds of Archaeology. Prehistoric Archaeology: Meaning, concepts and scope of prehistoric Archaeology, Chronological division of Cenozoic Era and events of the Pleistocene.
- **UNIT-II:** Environmental Archaeology: Main factors of the human environment; Studying the Landscape: Glaciated landscapes; Varves, Rivers, Cave Sites, Sediments and Soils.

Reconstruction of palaeo-environment of plant (Micro botanical and Macro botanical remains), animal (Micro fauna and Macro fauna) and human (Human modification of the living area, human exploitation of wider environment and human impact on island environment).

UNIT-III:Geo-archaeology: Basic principles and study components in geo-archaeology; analytical procedures in geo-archaeology;

Understanding Soil and Sediments: Physical features, Chemical features, Physical weathering and types of sediments; Chemical weathering and formation of main types of soil.

UNIT-IV: Formation processes in Archaeology and Ethno-Archaeology: Archaeological sites and its formation: Basic categories of Archaeological evidences; Types of sites and their contexts; Cultural formation processes and Natural / environmental formation processes in Archaeology.

Ethno-archaeology: Meaning, scope and approaches of ethno-archaeology; Ethnoarchaeology in India with special reference to Orissa.

UNIT-V: Assessment / evaluation/ quiz/ oral test /presentation/term paper as prescribed by the concerned teacher.

SEMESTER – III

ANTH-CE-C2

PREHISTORIC ARCHAEOLOGY AND PALAEOANTHROPOLOGY OF AFRICA AND EUROPE

Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30)

Duration of Examination: 4 hours

(Questions are to be set covering first four units)

UNIT-I Pleistocene events and Early Human :

Pleistocene events in the Glaciated area, Periglacial area and Pluviated area. Land and Records of Early Human in Africa and Europe.

UNIT-II Prehistory of Africa (Palaeolithic Cultures):

Lower Palaeolithic Pebble Tools Culture – evidences from Hadar, Laetoli, Olduvai Gorge, Koobi Forra;

Acheulian Culture in Africa – Evidences from Olduvai Gorge, Isimila, Kalambo Falls, Olorgesaillie; Middle and Late Palaeolithic culture of North Africa.

UNIT-III Prehistory of Europe (Palaeolithic Period):

Acheulian Culture in South Western Europe – evidences from Terra Amata, Torralba Ambrona, Pech-de-l'Aze

Middle Palaeolithic Cultures in Western and Central Europe.

UNIT IV Upper Palaeolithic and Mesolithic Cultures of Europe:

Upper Palaeolithic Cultures of Western and Central; Upper Palaeolithic habitations; economy and art in Europe.

Mesolithic Cultures of Europe: Mesolithic Cultural traditions, People, Subsistence and Settlements

UNIT-V Assessment / evaluation/ quiz/ oral test /presentation/term paper as prescribed by the concerned teacher.

Recommended Books:

SEMESTER – III ANTH-CE-D1 PRINCIPLES IN DEVELOPMENT ANTHROPOLOGY Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours

(Questions are to be set covering first four units)

- UNIT I:_Development as a historical process: Pre-capitalist societies; Capitalism and development; Western model of development in the colonial and post-colonial contexts; socialist models of development; post-war restructuring and Bretton Woods Institutions; the human factor in development; the Millennium Development Goals. Competing views on development : Neo liberalism, structuralism and interventionism ; Anthropology as an Applied Science ; applied development roles for anthropologists ; Development Anthropology ; concepts of Endogenous, Sustainable and Human Development.
 - UNIT II:_Meaning of Economic development and Economic growth; characteristics of Economic development; Social and Cultural Characteristics of economic development; Indices of Economic development; Development and underdevelopment: The Third World Profile; Defining the developing world: the structural diversity of developing economics; common characteristics of developing countries.
 - UNIT III: The concept of developmental state; democratic transitions of the developmental state: economic development and democratization, civil society and democratization; development outcomes in the developing countries; concept of Regionalism in the developing world: First Wave of Regionalism and Second wave of Regionalism; Regional co-operation between developing countries.
 - UNIT IV: Concept of Globalization as a highly differentiated process of change; Locating development in the context of Globalization; Strategic political responses of the developmental state: regulation, regionalism and resistance; Economic liberalization; A new Global Ethics; Globalization, Identity and Local cultures.
 - **UNIT V**: A **Project of 20 marks** on any of the above topics has to be submitted by the student before the end semester examination.

SEMESTER – III ANT-CE-D2 THEORIES AND METHODS IN DEVELOPMENT ANTHROPOLOGY Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours

(Questions are to be set covering first four units)

UNIT – I: Outline of the theories of Classical Economic development: Adam Smith, David Ricardo, Thomas Malthus, John Stuart Mill; Marxian Theory of Economic development; Neo-Classical Economics of Alfred Marshall; Keynesian Theory of Economic development.

UNIT – II:

W. W. Rostow's stages of Growth Concept ; theoretical concept of underdevelopment of Harvey Leibenstein ; Non-economic determinants in development planning of Gunnar Myrdal ; concept of endogenous development emphasizing entrepreneurship of Joseph Alios Schumpeter ; E. E. Schumacher's concept of Intermediate Technology with a Human Face ; Amartya Sen's concept of Development as capability expansion.

UNIT – III

Preparation of Development Action Plans; Logical Framework Analysis (LFA); Objective-Oriented Intervention Planning (OOIP); Cost-Benefit Analysis (CBA) and Cost Effective Analysis (CEA); Strength, Weakness, Objectives, Constraints (SWOC) Analysis; Participatory Research Methods (PRM); Monitoring and Evaluation.

$\mathbf{UNIT}-\mathbf{IV}$

Problems of Development: Famine and Hunger; Overpopulation; Diseases; Unemployment; Migration; Involuntary Displacement and Rehabilitation; War; Environmental degradation.

$\mathbf{UNIT} - \mathbf{V}$

A **Book Review of 20 marks** of any work on theory mentioned in Unit-I & II has to be submitted by the student before the end semester examination.

- 1. Myrdal, G., Asian Drama: An Enquiry into the Poverty of Nations (3 vols), New York : Harper and Brothers, 1968.
- 2. Marx, K and Engels, F., The Communist Manifesto, Harmondsworth : Penguin, 1967.
- 3. Rostow, W. W., The stages of Economic Growth: A Non-communist Manifesto, Cambridge: Cambridge University Press, 1960.
- 4. Schumacher, E. F., Small is Beautiful, London: Blond and Briggs, 1973.

SEMESTER – III

ANTH-CE-E1

PRINCIPLE IN POPULATION STUDIES Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30)

Duration of Examination: 4 hours

(Questions are to be set covering first four units)

Unit-I

Definition, Meaning, and Scope of Demography; Relevance of Demography; History and Development of Demography/Population Studies; Relation of Demography with other Disciplines: Sociology, Human Ecology, Economics, Geography; Anthropology.

Unit-II

Population Growth: Concepts, Definition and Theories (Biological, Social and Economic); Stages of Population Growth (Population Transition); Concepts of Stable Population, Optimum Population, Population Explosion, Threshold Population and Population Threshold.

Unit-III

Sources of Demographic Data: Census - History of Census; Significant features of Census; Problems connected with Census; Census techniques – de facto and de jure methods; Census in India.

Registration of Vital Events, Sample Registration system; Dual Report System, National Sample Survey, Population Registers, National and International Publications; Methods of Collection of Demographic Information.

Unit IV

Techniques of Population Analysis: Estimation of Mid-year Population and Person Year; Population Growth Rate, Age-sex structure, Sex-Ratio, Dependency Ratio, Age at Marriage, Literacy rate, life expectancy.

Measurements of fertility, mortality and migration; Crude-Birth Rate; General Fertility Rate; Total Fertility Rate; Age-Specific Fertility Rate; Gross-Reproductive Rate; Total Fertility Rate Child-Women Ratio, Couple Protection Rate, Crude-Death Rate, Age-specific Death Rate, Infant and Child Mortality Rate, Maternal Mortality Rate, Migration Rate, Population Projection.

Unit-V

Assignments, Quiz, Oral test/presentation, Book readings based on the above units as prescribed by the concern teacher.

Suggested Readings / Books Recommended:

- 1. Barclay, G. W.-Techniques of Population Analysis
- 2. Bhende A,T.Kanitkar- Principles of population studies
- 3. Bouge Donald, J. W.-Principles of Demography
- 4. Cox, Peter. R. -Demography
- 5. Dak, T. M.-Sociology of health in India
- 6. Hauser, P. & Duncan, D.-The Study of Population
- 7. Jain, Anrudh, K.-Infant Mortality in India
- 8. Mathur, R. N.-Population Analysis and Studies
- 9. Mishra, B. D.-Population Analysis
- 10. Park, D.-Preventive and Social Medicine
- 11. Premi, M. K.-Society and Population
- 12. Raj. Hans-Fundamentals of Demography
- 13. Sinha, V. C. & Zacharia, E.-Elements of Demography
- 14. Spiegelman, M.-Introduction to Demography.
- 15. Srivastava, O. S.-Demography
- 16. Visaria, Pravin-Differnentials and Determinants of Fertility

SEMESTER – III

ANTH-CE-E2 POPULATION THEORIES AND WORLD POPULATION GROWTH Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours

(Questions are to be set covering first four units)

Unit-I

Early Thinkers on Population Issues: Greek Thinkers, Roman Thinkers, Chinese Thinkers; Classical and Neo-Classical Schools of Thought on Population; Optimum Population Theory; Marxist and Socialist Schools

Population Theories: Pre-Malthusian, Malthusian, and Post-Malthusian; Theory of Population Transition; Sadler's Density Principle; Theory of Thomas Doubleday; Spencer's Theory

Unit-II

World Population Growth: History of World Population Growth; Growth rate, Causes of Population growth, Distribution of World Population; Distribution of Population (concentration) in Developed and Developing countries; Reasons of Uneven Distribution; World Population: Structure, Size, Density, Age-Sex Structure and Composition, Education and Life Expectancy; levels and trends of fertility and mortality, future prospects of world population

Unit-III

Population and Environment: Interrelation of Population Growth and Environment (Biotic, Social, Cultural, Carrying Capacity); the Problem of Overpopulation and Environmental Degradation

Unit IV

Health and Environment: Concept of Health and disease, Primary Health Care Approaches and Practices; Population Health: Endemicity, Disability, Women and Children, Problems of HIV /AIDs in India.

Unit-V

Assignments, Quiz, Oral test/presentation, Book readings based on the above units as prescribed by the concern teacher.

- 1. Barclay, G. W.-Techniques of Population Analysis
- 2. Bouge Donald, J. W.-Principles of Demography
- 3. Cox, Peter. R.-Demography
- 4. Dak, T. M.-Sociology of health in India
- 5. Hauser, P. & Duncan, D.-The Study of Population
- 6. Jain, Anrudh, K.-Infant Mortality in India
- 7. Mathur, R. N.-Population Analysis and Studies
- 8. Mishra, B. D.-Population Analysis
- 9. Park, D.-Preventive and Social Medicine
- 10. Premi, M. K.-Society and Population
- 11. Raj,. Hans-Fundamentals of Demography
- 12. Sinha, V. C. & Zacharia, E.-Elements of Demography
- 13. Spiegelman, M.-Introduction to Demography.
- 14. Mahadevan, K.-Fertility and Mortality
- 15. Mohadevan, K.-Sociology of Fertility
- 16. Mitra, Ashok-India's Population Vol. I & II
- 17. Sandhya, S.-Socio-Economic and *Cultural* Correlates of Infant mortality
- 18. Sinha, V.-Dynamics of Indian Population Growth
- 19. Souza, Victor, C. D.-Economic Development, Social Structure and Population Grow,"
- 20. Thompson, Ralph-Demographic Problems
- 21 Visaria, Pravin-Differnentials and Determinants of fertility

SEMESTER-IV

CORE ELECTIVE:3 PAPERS= 16 CREDITS = 300 MARKS(2 Theory papers x 4 credits= 8 credits; 1 fieldwork and dissertation = 8 credits)FREE ELECTIVE:1 PAPER= 4 CREDITS = 100 MARKS

TOTAL:4 PAPERS=20 CREDITS = 400 MARKS

*All Core Elective Papers in Semester-IV are also available as Allied Elective Papers for students from specified allied disciplines.

SEMESTER – IV ANTH-CE-A3 ANTHROPOLOGICAL THEORIES ON SOCIETY Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours

(Questions are to be set covering first four units)

- **Unit-I** Outline of approaches to the study of Society: Evolutionary, Social Action Approach; Marxian Approach; Structure-Functional Approach and its limitations. Structuralism and Post- Structuralism
- **Unit-II** Historical Particularism: Franz Boas, C.Wissler and A.L Kroeber; Contributions of Raymond Firth, Max Gluckman and E.R Leach.
- **Unit- III** Symbolic and Interpretative Anthropology: Victor Turner, Schneider and Clifford Geertz;
- Unit- IV Post-modern Anthropology: Contributions of Raheja, Apadurai, Bruno, Bordeu
- **Unit- V** Assessment/Evaluation

- 1. Barth, Frederik. 1981. *Models of Social Organization*, Royal Anthropological Institute, Occasional Paper-23. London: Routledge and Kegan Paul.
- 2. Behura, N.K. Anthropological thought and Theories
- 3. Bidney, D. 1964. *Theoretical Anthropology*, New York: Columbia University Press,
- 4. Childe, V. Gordon. 1963. Social Evolution, A.A Watt and Co ltd, 1951, First Meridian printing,

- 24. Parsons T and E. Shils (Ed.) 1952. *Towards a General Theory of Action*, Cambridge: Harvard Unversity Press
- 25. Radcliffe-Brown, A. R. 1952, Structure and Function in Primitive Society. New York: Free Press
- 26. Radcliffe-Brown, A. R. 1958. *Method in Social Anthropology*. edited by M.N Srinivas, Chicago: University of Chicago Press
- 27. Tylor, E. B. 1920 (originally in 1871), Primitive Culture, New York: J. P. Puthnam
- 28. White, L. A. 1949, *The Science of Culture: A Study of Man and Civilization*, Farrar, Strauss and Girux
- 29. Voget, Fred W. 1975. A History of Ethnology, USA,

SEMESTER – IV ANT-CE-A4 LINGUISTIC ANTHROPOLOGY Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours

(Questions are to be set covering first four units)

UNIT-I

Concept and Scope of Linguistic Anthropology; Linguistic Anthropology and other Behavioural Sciences; Universals of Language, Types: Descriptive and Historical Linguistic; Origin and Evolution of Language.

Language, Dialect and Idiolects: Definitions and Interrelations; Ethno linguistics, Socio-Linguistics; Language and the Brain. Linguistic Variations: Distinct Languages, Dialects and Pidgins and Creoles.

UNIT-II

Language as a System: Phonetic Sub System, Morphophonemic Sub System, Syntactic Sub System and Semantic Sub System; Generalization Linguistic Methodology; Comparative Method and historical Linguistics

Language and Culture: Cultural Influence on Language and Linguistic Influence on Culture Sapir–Whorf Hypothesis; Linguistic and Culture Change; taxonomy of languages and cultures. Socio- cultural contexts of linguistic acculturation

UNIT-III

Classification of Languages: Typological and Genealogical; Synchronic and Diachronic study of Languages; Functional study of Languages; Glottochronology

India as a Linguistic Area; Standard languages and Nationalism; speech variation and the study of Indian civilization; study and sacred language.

UNIT-IV

Languages and the Analysis of Social Laws; Language and Social Structure; Structural Analysis in Linguistics and Anthropology; Linguistics and Ethnology

Language and Communication: Verbal and Non-Verbal (Signs and Symbols); Communication and Sociability; Language and Speech; Linguistic Contact: Patterns of Contacts, Diaglosia and Multilingualism; Ethnography of Speaking; speech and personality; Communication and functions speech; literate and illiterate speech

UNIT-V

A book review of 20 marks of any classical anthropology book (preferably linguistic anthropology book) has to be submitted by the student before the end semester examination.

- 1. Ardver ,E.(ed) Social Anthropology and Language
- 2. Bloomfield, L. Language
- 3. Bright, W. Socio-linguistics
- 4. Burling, R. Man's Many voices-Language in its Cultural Context
- 5. Gleason, H.A. An Introduction to Descriptive Linguistics
- 6. Gumperz and The Ethnography of Communication
- Hymas(eds.)7. Hockett,C.F. A Course in Modern Linguistics
- 8. Hoijer, H. (ed) Language in Culture
- 9. Hymes, D.(ed) Language in Culture and Society
- 10. Kroeber, A.L. (ed) Anthropology Today
- 11. Lehmann, H.P. Historical Linguistics
- 12. Levi Strauss, C. Structural Anthropology (Selected chapters)
- 13. Mishra, K.K. Anthropological Linguistics
- 14. Sapir, E. Language

SEMESTER - IV **ANTH-CE-A5** PRACTICAL: RESEARCH METHODS AND ETHNOGRAPHY READINGS Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) **Duration of Examination: 6 hours**

(Questions are to be set covering first four units)

1.	Research Methodology :		40 Marks
	(i) Preparing for field wo	rk: Choosing a topic, narrowing the focus.	
	(ii) Research techniques:	Participant Observation, Questioning,	
	_	Interviewing, Scheduling, Sampling.	
	(iii) Conduct of field work	k: Gaining Entry, Survival	
		Acquiring a broader world view	
	(iv)Scientific field work:	The positivist approach and its application	n in Anthropology
		The Dialectic of Fieldwork	1 00
2.	Ethnographic Readings:		30 Marks
3.	Review of Literature:		30 Marks

SEMESTER – IV ANTH-CE-A6 FIELDWORK AND DISERTATION **Total marks: 100**

(Fieldwork, Dissertation and Field Diary: 70 + Assessment/Evaluation (Seminar Presentation): 30) **Duration of Examination: 6 hours**

Empirical study among the tribes and castes of Odisha is to be conducted for a minimum periods of 30 days in semester IV under the guidance of a teacher or teachers. Two copies of dissertation are to be submitted for examination after the 30 days field work and presentation of seminar. The Examination of Dissertation shall be conducted by an internal and an external examiner.

Dissertation based on 30 days fieldwork	50 Marks
Seminar Presentation (based on fieldwork)	30 Marks
Viva voce test on dissertation and Field Dairy	20 Marks

The Dissertation has to be submitted by the student positively before the end semester examination.

SEMESTER - IV ANT-CE-B3 **MEDICAL GENETICS** Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) **Duration of Examination: 4 hours**

(Ouestions are to be set covering first four units)

Unit-I

Medical Genetics: Meaning and Scope; History and impact of genetics in medicine; Genetic factors in Common Diseases: Gene- Disease-Environment interaction; Genetic susceptibility to Common Diseases: Diabetes, Hypertension, Coronary Heart Diseases. Single Gene Disorder and Chromosomal Disorders in Man.

Unit-II

Biochemical Genetics: Inborn Error Metabolism; Disorder of Amino Acid Metabolism. Disorder of Carbohydrate Metabolism, Disorder of Lipid Metabolism.

Haemoglobin & Haemoglobinopathies: Structure of Haemoglobin, Development and expression of haemoglobin, Disorder of haemoglobin: Sickle Cell Anaemia, Thalassemia; Clinical variation of the haemoglobinopathies.

Pharmacogenetics: Definition, evolutionary origin of variation in drug responses, pharmacogenomics, ecogenetics

Unit-III

Immunogenetics: Immunity, Innate and acquired immunity, Inherited immunodeficiency disorder: HLA and Disease; Blood groups.

The genetics of Cancer: Differentiating between genetic and environmental factors in cancer; Oncogens, Tumour suppressor genes, genetics of familial cancer.

Unit-IV

Application of Medical Genetics: Prenatal diagnosis & Genetic Counselling, Gene Therapy; Stem cell therapy and Bone marrow transplantation.

Population Screening and community genetics.

Ethical, Legal & Social (ELSI) issues in Medical Genetics.

Unit-V

Assignments, Quiz, Oral test/presentation, Book readings based on the above units as prescribed by the concern teacher.

- 1. Crawford, M. (Ed). 2006 Anthropological Genetics. Cambridge University Press.
- 2. Brown, T. A. 2002. Genomes 2 Edition. Wiley-Liss, UK.
- 3. Jobling M. A., M. E. Hurles and C. Tyler-Smith. 2004. *Human Evolutionary Genetics:* Origins, Peoples & Disease. Garland Science. New York.
- 4. Sudbery, P. 2009. *Human molecular genetics*, 2nd Edition. Pearson (LPE).
- 5. Cummings, M. R. 2009. Human Genetics. Cengage Learning.
- 6. Vogel, F and Motulsky, G. 1998. *Human genetics: Problems & Approaches*. Springller, Berlin.
- 7. Tamarin, R. H. 2002. Principles of Genetics. Tata Mc Graw-Hill Edition.
- 8. Gelehort, T.D., F. S. Collins and D. Gineburg. 1998. *Princeples of Medical Genetics*. Williams & Wilkins, USA
- 9. Li, Wen-Hsiung. 1997. *Molecular Evolution*. Sinauer Associates, Inc., Publishers, USA.
- 10. Page, R. D. M. and E. C. Holmes. 1998. *Molecular Evolution: A Phylogenetic Approach*. Blackwell Science, London.
- 11. Cavalli-Sforza, L., P. Menozzi, and A. Piazza. 1996. *The History and Geography of Human Genes*. Princeton University Press.
- 12. Klung S. W, M. R.Cummings and C. A. Spencer. 2007. *Essentials of Genetics*, Sixth Edition. Pearson Education International.
- 13. Muller R. F. and I. D. Young. 2001. Emery's Elements of Medical Genetics. Churchill Livingstone, London.

SEMESTER – IV ANTH-CE-B4

HUMAN GENOMICS: METHODS AND PRINCIPLES Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours

(Questions are to be set covering first four units)

Unit-I

Human Molecular Genetics: Meaning and Scope, Molecular Logic of life; Bio-molecules: meaning and functions; Structure and function of DNA and RNA; From DNA to Chromosome: Chromatin and Nucleosome

Human Molecular Cytogenetics: Karyotype Analysis, Banding Techniques, FISH, MFISH, SKY, Chromosomal Abnormalities: Numerical and Structural.

Unit – II

Replication of DNA: Types and stages; Enzymes for Manipulation: DNA polymerase: types and functions; Nucleases, Ligases, End-modification Enzymes;

RNA polymerase: Types and functions; Mutations: Types and mutagenic factors; Repair and Recombination of genome

Unit-III

Molecular basis of human gene expression: Mechanism of transcription, RNA splicing and editing, Exon shuffling and Translation; The Genetic Code; Synthesis and processing of Protein;

Molecular Mechanism of Gene regulation; Genetics of Cancer: Oncogenes and Tumor suppressor gene.

Unit-IV

Tools and Techniques in Human Molecular genetics: Development of Recombinant DNA technology and cloning, Restriction enzymes, vectors, PCR and Gel Electrophoresis ; RFLP/RAPD; Southern Blotting, Northern Blotting and Western Blotting, Electrophoresis, DNA sequence analysis: DNA Microarrays technology and its application .Bio-informatics and its application in anthropology (NCBI, ENSEMBLE, PRIMER, BLAST)

Unit-V

Assignments, Quiz, Oral test/presentation, Book readings based on the above units as prescribed by the concerned teacher.

- 1. Muller, R. F. And I. D. Young. 2001. *Emery's Elements of Medical Genetics*, 11th Edition. Churchill Livingstone.
- 2. Primose, S. B. and R. M. Twyman. 2006. *Principles of Gene Manipulation and Genomics*, Seventh Edition. Blackwell Publishing, USA.
- 3. Crawford, M. (Ed). 2006 Anthropological Genetics. Cambridge University Press.
- 4. Brown, T. A. 2002. Genomes 2 Edition. Wiley-Liss, UK.
- 5. Jobling M. A., M. E. Hurles and C. Tyler-Smith. 2004. *Human Evolutionary Genetics: Origins, Peoples & Disease*. Garland Science. New York.
- 6. Sudbery, P. 2009. *Human molecular genetics*, 2nd Edition. Pearson (LPE).
- 7. Cummings, M. R. 2009. Human Genetics. Cengage Learning. USA

- 8. Lewin, B. 2008. Genes IX. Jones and Bartlett Publishers, Sudbury, Massachusetts. 9. Cavalli-Sforza, L. L. & W. Bodmer-Evolution, Genetics and Man.

SEMESTER - IV ANTH-CE-B5

ADVANCED PRACTICAL IN DEMOGRAPHY & HUMAN GENETICS Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) **Duration of Examination: 6 hours**

(Questions are to be set covering first four units) (Practical, Laboratory Visit)

The Examination of Practical shall be conducted by an internal and an external examiner.

- **A. Human Genetics**
- I. Each student has to conduct the following practical:
- a. Estimation of pH and Molarity of given solution
- b. G6PD Deficiency
- c. Extraction of DNA: Methodology
- d. Identification of Human Chromosome karyotype. (Details of procedure of WBC culture, Metaphase arrest, Incubation, Staining etc/photographic analysis)

C. Analysis of Demographic Data

- Preparation of schedules for collection of demographic data a.
- Compilation and presentation of data on population studies age-sex composition, b. fertility measures, mortality measures, with special reference to Tribal population of

India

- Pictorial comparison of health indicators c.
- Analysis of NFHS (I to V) data d.

II. Instrumentation and Laboratory Visit. functioning Students are learn of Instruments: Electrophoresis, Colori-meter. to Spectrophotometer, PCR, Gel-Doc imaging system as well as bioinformatics (NCBI, ENSEMBL and PRIMER)

The students are to visit Laboratories of National Institutes /Allied Departments within/outside the State for training on advanced Human Genetics practical and instrumentation at least for a period of 10 days.

Practical Records	10 Marks
Viva voce test on Practical	10 Marks

30 Marks

30 Marks

20 Marks

SEMESTER – IV

ANTH-CE-B6

FIELDWORK AND DISSERTATION

Full Marks: 100

(Fieldwork, Dissertation and Field Diary: 70 + Assessment/Evaluation (Seminar Presentation): 30) Duration of Examination: 6 hours

The Students are to conduct fieldwork for a period of 20 days for preparation of dissertation on topics relating to biological anthropology and human genetics under the guidance of teachers. The Examination of Dissertation shall be conducted by an internal and an external examiner.

Dissertation based on 20 day's fieldwork	50 Marks
Seminar Presentation	30 Marks
Viva voce test on dissertation and Field Dairy	20 Marks

The Dissertation has to be submitted by the student positively before the end of semester examination.

SEMESTER – IV

ANTH-CE-C3

FIELD TECHNIQUES AND METHODS IN PREHISTORIC ARCHAEOLOGY Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours

(Questions are to be set covering first four units)

Unit-I Typology and Technology in Prehistoric Archaeology:

Understanding Typology and Functions Prehistoric Artifacts and Tools: Terms of specifics in artifact analysis (artifacts, tools, industry, association, assemblage, aggregate, attribute type and typology); Types of Artifacts--Core, Flake, Blades ; Tool Typology--Pebble tools, Bifaces, Blade Tools, Borer/Awl, Burin, Points, Denticulate, Notch; Microliths (Geometric types, Non-geometric types); Ground and polished tools;

Prehistoric Technology: Manufacturing techniques of Prehistoric tools (lithic, bone and antler/horn); Experimental Archaeology: Lithic Use-Wear Analysis.

Unit-II Methods of Dating in Archaeology:

Relative Dating Methods: Stratigraphy, Typological sequence, Palynology, Varve Analysis;

Absolute Dating Method: Radio Carbon Dating, Potassium-Argon Method, Thermo luminescence Dating, Fission Track Dating;

Calibrated Relative Dating Methods: Obsidian Hydration, Amino-Acid Racemization, Cation ratio dating, Archaeomagnetic Dating.

Unit-III Field Methods in Archaeology:

Exploration: Purpose, Classes and surveying equipments; Methods of exploration – Researching Maps, Ground Reconnaissance; Aerial Reconnaissance; Geophysical Prospecting Methods.

Excavation : Meaning and objectives; Instruments used in excavation; Methods of Excavation – Trial Trenching or Sondages, Vertical Excavation, Horizontal Excavation; Excavation of Rock shelter and caves.

Unit-IV Specialized Field Methods in Archaeological Research:

Emergence of Computer Application in Archaeology (i) Application of Remote Sensing in Archaeology; (ii) Application of Geographic Information System for spatial analysis and archaeological resource management.

Unit-V Assessment / evaluation/ quiz/ oral test /presentation/term paper as prescribed by the concerned teacher.

SEMESTER – IV

ANTH-CE-C4

PREHISTORY AND PROTOHISTORY OF EASTERN INDIA AND SOUTH EAST ASIA Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours

(Questions are to be set covering first four units)

- Unit-I Prehistory of Eastern India: An Ecological perspective of Stone Age Palaeolithic Cultures of Eastern India (with special reference to Bihar, Bengal and North Eastern Regions) Mesolithic and Neolithic Culture of Eastern India (with special reference to Bihar, Bengal and North Eastern Regions)
- Unit-II Prehistoric Archaeology of Odisha and Protohistory of Eastern India: Prehistoric Archaeology of Odisha: (i) Palaeolithic (Lower, Middle, Upper) Cultures, (ii) Mesolithic Culture and Neolithic Culture. Protohistoric Archaeology of Eastern India: Metal Age Culture (Chalcolithic) of Odisha, Bihar, Bengal and Northeast.

Unit-III Pleistocene and Holocene Events in Southeast Asia:

Pleistocene Events : Land and Records of Early Human in South East Asia; Pleistocene Epoch in Southeast Asia; Stone tool Industries of the Middle Pleistocene and Upper Pleistocene periods.

Holocene Events in Southeast Asia:

Early Holocene Stone tool industry – the Hoabinhian Techno-complex of the Southeast Asian main land.

Unit-IV

Neolithic Culture in Southeast Asia: Neolithic Cultures of the Southeast Asia Mainland and Neolithic Cultures of Southeast Asian Islands.

Unit-V Assessment / evaluation/ quiz/ oral test /presentation/term paper as prescribed by the concerned teacher.

SEMESTER – IV ANTH-CE-C6 FIELDWORK AND DISSERTATION Full Marks: 100 (Fieldwork, Dissertation and Field Diary: 70 + Assessment/Evaluation (Seminar Presentation): 30) Duration of Examination: 6 hours

Each student is required to submit a dissertation based on at least 20 days fieldwork on topics relating to archaeological exploration and/or excavation of Prehistoric or Protohistory sites, ethnoarchaeology, and ethno-technology of ethnic groups: tribal or rural community under the guidance of the concerned teacher or teachers. The concerned teacher will finalize the field site in consultation with the Head of the Department. The Examination on Dissertation shall be conducted by an internal and an external examiner.

The students are to visit National and State Museums/Museums of Allied Departments within/ outside the State for collection of data/information on ethnography and ethno-technology of tribal/ rural community at least for a period of 10 days.

1.	Dissertation based on 20 day's fieldwork	50 Marks
2.	Seminar Presentation	30 Marks
3.	Viva voce test on dissertation & Field Dairy	20 Marks

The Dissertation has to be submitted by the student positively before the end semester examination.

SEMESTER – IV ANTH-CE-D3 CULTURE AND DEVELOPMENT Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours

(Questions are to be set covering first four units)

Unit-I

Tradition, modernization and development; symbiotic relationship between culture and development; development in the framework of culture; objectives of UNESCO's World Decade of Cultural Development (WDCD); culture as homeostatic and as a vehicle of change; interaction dynamics between culture and development: slow and fast variables.

Unit-II

Integration of cultural factors into development: a cultural approach to development planning, policies and processes; tools to decision-making; instruments for work in the field; multidisciplinary approach and the creation of a cultural awareness for development; participation as condition for consideration of the cultural dimension.

Unit-III

Cultural impact in some priority areas of application in development: technology; cultural industries and cultural entrepreneur; agriculture and food security; health; women development; mass media; urban development; human rights.

Unit-IV

The role of the state in development; the state and the politics of development: interests and influences, political agents and institutions; the decline of the state as a development agency; other official development agencies: the United Nations and its six principle organs, other UN programmes and specialized agencies; the World Bank and International Monetary Fund; official Aid programmes; other multilateral and bilateral organisations; non-governmental organisations.

Unit-V

A review paper of 20 marks on the recent findings of cultural application in development in one of the priority areas stated in Unit-III has to be submitted by the student before the end semester examination.

SEMESTER – IV

ANTH-CE-D4

ANTHROPOLOGY OF ORGANISATIONAL AND BUSINESS DEVELOPMENT Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours

(Questions are to be set covering first four units)

Unit-I

Historical development of business anthropology; principles of management in anthropological perspective; dimensions of national culture; cultural differences in work related values; national culture and management, cross-cultural management; organizational ethnography.

Unit-II

Cultural ecology of organizations; dynamics of organizational culture; anthropological perspectives on organizational culture; etics and emics approaches in the study of organizational culture; anthropological dimension in organizational behaviour; Impact of culture in human resource management, cultural diversity and cross-cultural human resource management.

Unit-III

Anthropological aspects of market and marketing; use of anthropological knowledge in marketing management: specific knowledge, awareness of themes, sensitivity to taboos, symbolism; anthropological approach to consumer behaviour; consumption anthropology; ethnography in market research.

Unit-IV

Marketing and multi-cultural diversity; cross-cultural marketing; cultural dimension in market segmentation; cultural approach to branding in the global market place; culture specific product design, cross-cultural design ; business advertising appeals as a mirror of cultural dimensions, matching advertising appeals to cultures: the influence of product's use conditions.

Unit-V

A **Project of 20 marks** concerned with qualitative business and organizational analysis employing an anthropological approach and ethnographic research methods has to be submitted by the student before the end semester examination.

SEMESTER – IV ANTH-CE-D5 ADVANCED PRACTICAL IN COMMUNITY AND ORGANISATIONAL DEVELOPMENT Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30)

Duration of Examination: 6 hours

(Questions are to be set covering first four units)

The Examination on Practical shall be conducted by an internal and an external examiner. Module-1: Relationships Tools. 30 Marks

1. Stakeholder identification.	
2. Stakeholder analysis.	
Module-2: Planning Tools.	20 Marks
3. Community and organizational mapping	
4. Institutional analysis.	
5. Development opportunity ranking.	
Module-3: Assessment Tools.	20 Marks
6. Social baseline study.	
7. Social impact and opportunities assessment.	
8. Competencies assessment.	
Module-4: Monitoring and Evaluation Tools.	20 Marks
9. Indicator development.	
10. Goal attainment scaling.	
Viva Voce	10 Marks

SEMESTER – IV

ANTH-CE-D6

FIELDWORK AND DISERTATION

Total marks: 100

(Fieldwork, Dissertation and Field Diary: 70 + Assessment/Evaluation (Seminar Presentation): 30) Duration of Examination: 6 hours

A dissertation has to be submitted by the student after one month field work. The concerned teacher will finalize the field site in consultation with the Head of the Department. The Dissertation shall be examined by an internal and an external examiner which will be followed by a viva voce examination.

Dissertation based on 30 day's fieldwork	50 Marks
Seminar Presentation	30 Marks
Viva voce test on dissertation and Field Dairy	20 Marks
The Dissortation has to be submitted by the student positively	before the end

The Dissertation has to be submitted by the student positively before the end semester examination.

SEMESTER – IV ANTH-CE-E3 POPULATION DYNAMICS IN INDIA Full Marks: 100 (Theory: 80 + Assessment/Evaluation: 20) Duration of Examination: 4 hours

(Questions are to be set covering first four units)

Unit-I

Demographic Profile of Indian Population: Population Size, Decadal Growth Rate, Population distribution in different States and Rural-Urban distribution, Causes of uneven distribution.

Unit-II

Structure and Composition of Indian population: Age-Sex Structure, Sex ratio, Marital Status, Educational status, Labour force participation, Language, Religion, Ethnic groups and minorities.

Unit -III

Population growth in Orissa: size, density, Decadal growth rate, District-wise and Rural-Urban distribution, Causes of Uneven distribution

Demographic profile of Orissa: population composition by Age –Sex Structure, sex ratio, marital status, Labour force participation, Education and religion, Ethnic groups and minorities

Unit-IV

Factors Influencing Population Dynamics in India: Fertility - Differential Fertility; Level and Trend of Fertility; Factors affecting Fertility in India;

Present Trend of Mortality; Infant and Child Mortality, Maternal Mortality; Causes of High Infant Mortality;

Unit-V

Assignments, Quiz, Oral test/presentation, Book readings based on the above units as prescribed by the concern teacher.

SEMESTER – IV ANTH-CE-E4 POPULATION PROBLEMS AND POLICIES IN INDIA Full Marks: 100 (Theory: 80 + Assessment/Evaluation: 20) Duration of Examination: 4 hours

(Questions are to be set covering first four units)

Unit-I

Problems of Population Growth in India: Density, Food, Housing, Education, Employment, Health, Environment, Economic Condition, Over-Crowding Communicable and non-communicable diseases.

Unit-II

Concept and types of Migration in India; Trends of migration; Rural-Urban Migration; Effects of migration; Causes of Migration: Social, Economic and Political.

Unit-III

Problems of the Vulnerable Sections of the Indian Population: Biological, Socio-cultural and Psychological Problems of Children, Women and the Aged.

Problems of Tribal Populations of Orissa: Growth rate, Fertility rate, Sex ratio, Literacy, Labour force participation, MMR and IMR.

Unit-IV

Population Policy in India: A Historical Review; Fertility Influencing Policy, Mortality Influencing Policy, Migration Influencing Policy

Development of Health Care Policy in India; Preventive and Curative Health Care programme for Women, Children, Aged; Family welfare measure in India.

Unit-V

Assignments, Quiz, Oral test/presentation, Book readings based on the above units as prescribed by the concern teacher.

- 1. Agarwals, S. N.-India's Population Problem
- 2. Alam, S. Manzoor & Alikhan Falima-Perspectives on Urbanisation & Migration
- 3. Arora, Gomti-Social Structure & Fertility

SEMESTER – IV ANTH-CE-E5 PRACTICAL: ANALYSIS OF CENSUS, NFHS AND NSS DATA AND REPORT WRITING Full Marks: 100 (Theory: 80 + Assessment/Evaluation: 20) Duration of Examination: 6 hours

(Questions are to be set covering first four units)

A student will collect and compile demographic data from different secondary sources on any given topic by the concerned teacher and a project report will be submitted for its evaluation.

1. Make a Schedule on Health and Demography.

2. Calculation of Infant Sex ratio, Fertility rate, Total fertility rate, Mortality rate, Birth rate, crude birth rate, crude death rate, Mortality rate, life expectancy, immigration rate, population growth rate.

3. Identification and Characteristics of Various diseases.

4. Case Studies of Traditional and Modern healers.

5. The students will visit a NGO or corporate office or census office in Odisha and its

adjoining areas and write principal observations on the same.

6. Write a project on the demographic profile from secondary data.

7. Collect data on bio-social problem and design counselling and give the analysis and interpretation.

SEMESTER – IV ANTH-CE-E6 FIELDWORK AND DISSERTATION Full Marks: 100 (Fieldwork, Dissertation and Field Diary: 70 + Assessment/Evaluation (Seminar Presentation): 30) Duration of Examination: 6 hours

A dissertation has to be submitted by the student after one month field work. The concerned teacher will finalize the field site in consultation with the Head of the Department. The Dissertation shall be examined by an internal and an external examiner which will be followed by a viva voce examination.

Dissertation based on 30 day's fieldwork	50 Marks
Seminar Presentation	30 Marks
Viva voce test on dissertation and Field Dairy	20 Marks

The Dissertation has to be submitted by the student positively before the end semester examination.

ALLIED ELECTIVE / FREE ELECTIVE

SEMESTER – IV ANTH-AE-1A&1D / ANTH-FE-1 TRIBES IN INDIA: THEIR PROBLEMS AND DEVELOPMENT Full Marks: 100 (Theory: 70 + Assessment/Evaluation: 30) Duration of Examination: 4 hours

(Questions are to be set covering first four units)

Unit-I

Evolution, nature and scope of tribal Studies in India, Conceptualizing Scheduled Tribe, Social Organization, Economic Organization, Political and Religious Organization, and Language among the Tribes. Folklore, Art and Crafts, Gender and Class Stratification of the Indian Tribal Society;

Unit-II

Concept of Difference and Inequality, Tribal Self Image and Identity; Patterns of Inter-Tribal Relations; the World View of Indian Tribes; Tribe-Caste Contrast Versus Continue, Ethnic Relation, Conflict and Change.

Unit-III

Tribal Problems in India and their remedial measures, Barriers and Stimulants to Tribal Development; Tribal Administrations: 5th and 6th Schedules, Scheduled Area and Tribal Area. Constitutional Provisions and Safeguards for the Scheduled Tribes, Role of NGOs, Government and Anthropologist in Tribal Development

Unit-IV

Overview of Tribes of East India, South India, Central India, North and North East Regions of India, Western India and Andaman and Nicobar Regions

Unit-V

A book review of 20 marks of any Classical Anthropology book has to be submitted by the student before the end semester examination.

- 1. Mathur, Hari Mohan (Ed.) Anthropology in Development Process
- 2. Foster, G.M Traditional culture and impact of technological Change

SEMESTER – IV ANTH-AE-1B/ ANTH-FE-2 FORENSIC ANTHROPOLOGY AND CRIMINOLOGY Full Marks: 100 (Theory: 80 + Assessment/Evaluation: 20) Duration of Examination: 4 hours

(Questions are to be set covering first four units)

Unit-I

Definition, Scope and methods of Forensic Anthropology. Criminology: Concept and meaning. Theories of crime, types and definitions of crime, causes and correlates of crime. Anthropological criminology.

Unit-II

Basics of Human Osteology and Odontology

Study of Skeletal Material: Human and animal remains. The study of bone fragments. Attributes of sex, estimation of age and reconstruction of stature from the skeletal remains and their medico-legal implication.

Forensic Odontology: tooth structure and growth, estimation of age in young and adult. Population difference in size and morphology. Bite marks. Individualization of tooth pulp.

Unit-III

Establishment of partial and complete identity of skeletal material and dead bodiesmorphometric techeniques.

Personal identification of living persons: Identification through somatometric and somatoscopic observations, nails, occupation marks, scars, tattoo marks and deformities; handwriting and mannerism.

Finger prints: Identification of living and dead through partial and complete prints. Classification of fingerprints for criminal record purposes. Chance Prints. Various methods of latent print development. Sole prints.

Unit-IV

Forensic Haemogenetics: Pattern of blood splashes. Identification of blood stains and determination of species of origin. Individualization of blood stains: Determination of blood group, sex, age and racial origin from dried bloodstains. Identification and individualization of body fluids like semen, saliva and urine.

DNA profiling and individualization.

Disputed parentage: role of Anthropological traits in solving such cases.

Forensic Anthropologist's as an expert witness under section 45 of the Indian Evidence Act.

Ethical responsibilities in Forensic Science.

Unit-V

Assignments, Quiz, Oral test/presentation, Book readings based on the above units as prescribed by the concern teacher.
