## A VALUE ADDED COURSE ON ETHICAL HACKING

INTEGRATED MCA  
UTKAL UNIVERSITY

## Speaker :

**Pranab Ranjan**  
**IIIT Bhubaneswar**

Ethical Hacking is an authorized practice of bypassing system security to identify potential data breaches and threats in a network. The company that owns the system or network allows Cyber Security engineers to perform such activities in order to test the system's defenses. Thus, unlike malicious hacking, this process is planned, approved, and more importantly, legal.
