PHILOSOPHY

The University addresses to the problems and find the prospects to improve the competency and employability capacity in the students who need to take up a livelihood immediately.

AIMS AND OBJECTIVES:

- 1. To develop the curriculum and to design the core and elective subjects to start with integration of higher secondary learning (consistent with NCERT Syllabus) and then build the content to the desired level accepted nationally and internationally.**
- 2. The suggested prescribed books and reference books where reference books are more in number to broaden the knowledge base of students in general.**
- 3. The practical papers are made relevant to theory content. Examination through tests and practical's take care of evaluating the extent to which both the border and local objectives are achieved by the students.**

INTRODUCTION

Utkal University as the mother university of all state Universities of Odisha, to its pride, has 2 campuses (including **1 rural campus** in Chandikhol), more than **330 affiliated institutions with 28 PG teaching departments** running more than 40 courses (including self-financing) and torch bearer for nearly 2,00,000 students in an academic year

University thrives not only for quantitative expansion but also believe in qualitative changes in both formative and summative assessment of students' academic achievement in general.

Changes in process –

After experiencing the overall impact of COVID-19 pandemic there is paradigm shift in the examination and evaluation in tune with COVID appropriate behavior and catering to the need of the time: **Convenience, Comfort & Care** for safety and ensuring good health of the students. Under the support of World Bank 'OHEPEE' program logistic support has been developed so that the offline examination will be replaced by online system as and when necessary. The exam related activities from data capturing of students post admission, filling up of forms to publication of result there has been a change **from institutions centric approach to student centric provision** in the online platform.

The examination system of the University has been designed keeping in view the best available options of evaluation & certification along with their global acceptability. The basic principle of the system is that it is "scientific, objective and transparent" with least possibility of subjectivity caused due to the individual evaluator, particular subject or a particular batch of students.

Reformative Achievement:

1. Introduction of project work for meritorious students (above grade B) and research methodology in UG and PG courses in the Final Semester as per model CBCS syllabus will **increase research activity** and creativity among students. It will **boost innovations** and new ideas which will enhance the **quality of education**.

2. As a part of **e-Administration**, the restructuring of Examination sections to online platform will address students' problem in time-bound manner at par with the **5T (team work, technology, transparency, transformation and time limit) philosophy** of the state govt. This will facilitate different services to students from anywhere anytime and bring same type of services under one umbrella.
3. The cost-effective **online test** will facilitate in **smooth conduct of examination** and will be more convenient for the students - particularly to students from distant remote areas and other states.
4. Complete **digitization of certificate** and integration with NATIONAL ACADEMIC DEPOSITORY (NAD) for timely disposal of certificates after publication of result and to make the verification and authentication, transparent and time saving.

EXAMINATIONS REFORM

IT integration in examination management system

Management Information System: Over the past few years, the use of technology has changed the way Higher Education Institutions function on a day-to-day basis. Technology has not only fostered an ambience of good governance in universities, it is also driving significant changes in the way educational institutions meet their goals and objectives. Utkal University has an efficient management information system especially in connection with Admission and Examinations. The Office of the Controller of Examinations utilizes information systems under the rubric e-Admission and UUEMS to address all matters pertaining to the two key areas of Admission and Examinations.

- I. **E-Admission:** The Office of the Controller of Examinations is responsible for e-Admission which includes (i) Online Application and payment of fees for entrance examination/registration via the web portal for admission and/or examination (ii) online verification of the candidates seeking admission to various courses (iii) maintenance of total student for further use (iv) online declaration of entrance results for admission into various courses. **From the year 2020 onwards admission into post graduation courses is being done centrally by Govt. of Odisha through Common PG Entrance Test (CPET).**
- II. **UUEMS:** Utkal University has taken a major step towards automation of its examination system especially with regard to its affiliated colleges. The **Utkal University Examination Management System (UUEMS)** has been created with the objective to assist its affiliated colleges to monitor examination schedules, to stay informed about important announcements in connection with examinations through an online platform. UUEMS is used by the University to declare results of all undergraduate semester exams, and also makes provision for the availability of various download-able forms for grievances and all issues related to results, certificates and mark sheets. Each affiliated college is provided with a **unique user i.d and password** to access specific information concerning examinations, results and certificates for their respective students. This apart, UUEMS is also responsible for **On Time Graduation Report (OTG)** monitoring which provides an abstract of the number of students taking admission in the 1st semester of each year in different streams and the pass percentage of students for a particular year. UUEMS has helped the University move away from paper-based forms and manual methods in managing information regarding examinations and results and maintaining these records in a digital format.
- III. **P.G. Examinations:**
The issue of admit card, processing and publication of result for all P.G. Courses are taken care by the in-house examination computer cell. The project on examination automation for total online service and linking of examination portal to official website of Utkal University <https://utkaluniversity.ac.in/> is in process with the assistance of World Bank-OHEPEE Programme.

In addition to these the official website of the University <https://utkaluniversity.ac.in/> is a fine example of one of the biggest data management systems currently being used by the University. The website is a storehouse of information about the University in totality.

- IV. **E-Office:** On the anvil, however, are other initiatives like the setting up of an **e-Office** as part of its **green initiative** and to convert most or all office communications to electronic form. The e-office with its integrated file and records management system would allow employees to manage content, search for data internally and collaborate. It would also help in the electronic tracking of files, and to archive and retrieve data whenever needed.
- V. **NAD:** Utkal University has already been registered to the National Academic Depository (NAD) for sharing of data relating to students' results and certificates for verification of different stakeholders. Till now more than seven lakhs data relating to students' result, who have successfully completed different courses in the last five years and so, have been uploaded in the NAD portal.
- VI. **Research Activities**
Before the pandemic in the academic year 2019-20, University has conducted pan India entrance test for admission to Ph.D. programme to encourage qualitative research in the campus. In conformity to the UGC guidelines, after the Pandemic University has facilitate to conduct the online viva-voce test for the benefit of the scholars and adjudicators.
- VII. **Students' Grievances on results and re-addition** of answer scripts will be addressed online after examination automation.

Transparency Features

- The panel of subject wise examination paper setters would be appointed by the University authorities as per recommendation of concern Board of Studies.
- The evaluation of all semester examination is conducted through central valuation method for U.G. classes with coding of answer scripts and for P.G. Courses, the evaluation is conducted in the concerned Departments where 50% of the answer scripts are evaluated by external examiners to ensure fairness and equity.
- Wherever a student is not satisfied with the evaluation, he/she can get the photo copy of the answer scripts on payment of prescribed fee and for genuine grievance it will be reviewed by the **Evaluation Review Board** constituted for the same purpose.
- The decision of Evaluation Review Board shall be final and binding.
- Final Internal Evaluation shall be displayed by the departments/Institutes, before submission to the University.
- The total marks obtained in Internal and External Examination shall be submitted to the Controller of Examination's Office for conversion into Grades based on Relative Grading system.
- The final grades of the semester will be displayed along with SGPA (Semester Grade Point Average) at the time of declaration of results.

Fairness in Assessment:

Assessment is an integral part of system of examination as it is instrumental in identifying and certifying the academic standards accomplished by a student and projecting them far and wide as an objective and impartial indicator of a student's performance. University ensures that the evaluation of answer scripts of examinees across different courses is carried out in fair manner without any prejudice, favor and nepotism. In this regard, all possible checks and balances like coding of answer scripts, rotation of examiners and provision of external examiners are taken care to enable effectively and fairly carry out the process of assessment and examination.

Security of the Certificate

All Diplomas relating to the Degrees offered by the University are prepared on High Security, non-tear-able and non-destructible stationeries by outside confidential printer. Moreover including security features, every certificate come with a QR code to ascertain and verify the genuineness of the certificate online.

Future course of action

The cost-effective **online test** will be introduced for **smooth conduct of examination** and will be more convenient for the students - particularly to students from distant remote areas and other states.

To facilitate online valuation of answer scripts, each student will be provided smart card with bar code, each answer script is given a bar code and scan by hi-speed machine, Marks will be submitted through on-line for processing error free, transparent and timely publication of results.

CONCLUSION

More academic reforms in India are in the threshold after the introduction of New Education Policy. Going by the basic objectives of universalization of education, the institute is in process to implement reformative measures that includes to the greater institution autonomy, a new credit accumulation and transfer system, new assessment protocol, student access syllabi and regular revision. Moreover with inclusion of online mode of examination, it will cater to the need of examinees at large appearing for diversified programme coming from different states of the country.

- {2} The list of registered college and University teachers compiled by the Registrar under sub-statute (2) of statute 205 as well as the lists prepared by the Controller of Examination under sub-statute (3) of statute 205 and sub-statute (1) above shall be placed before the different Boards of Studies. The Boards of Studies shall consider these lists and recommend three times the number of persons as are required as Question Paper Setters or as Examiners for any particular question paper or examination, for the purpose of appointment for that year only. Such recommendations of the Boards of Studies shall not confer any right of appointment on any person as a Question Paper Setter or as an Examiner.
- {3} The Controller of Examination shall scrutinise the list of question paper setters and examiners recommended by the Boards of Studies to ensure the following :-
- [i] the period of appointment of any teacher as Question Paper Setter or Examiner does not exceed the total period prescribed under these Statutes;
 - [ii] no teacher has incurred any disqualification under Statute 202;

- [iii] the teacher is not subjected to an investigation or prosecution in a case under the Orissa Conduct of Examinations Act, 1988 within the knowledge of the Controller of Examinations.
209. {1} There shall be an Examination Committee which shall perform the following functions, namely :-
- Examination Committee
- [i] to recommend to the Syndicate, names of suitable persons for appointment as Examiners;
- [ii] to consider the reports of the Centre Superintendents of Examination Centres and Supervisors of Valuation Centres and Observer deputed to Examination Centres and make recommendations thereon to the Syndicate;
- [iii] to consider the reports of Board of Conducting Examiners on the work of Chief, Additional, Special and Assistant Examiners;
- [iv] to consider all cases of unfair practices in examinations and make suitable recommendations to the Syndicate;
- [v] to perform such other functions related to examinations as may be assigned to them by the Syndicate and the Vice-Chancellor.
- {2} The following shall be the composition of the Examinations Committee, namely :
- [a] The Vice-Chancellor :
- [b] two members of the Syndicate from among those specified in clause (c), (d), (e), (f), (g) and (h), of sub-section [1] of section 10 of the Act to be nominated by the Vice-Chancellor for a term of not more than one year or for a particular examination to examination basis:

- [c] the Controller of Examinations shall be the Secretary of the Committee.

Any two of the three members shall form the quorum of the Committee.

- {3} The Vice-Chancellor shall, when present, preside at all meetings of the committee and in his absence one of the two Syndicate members as agreed between them shall preside at such meeting.

- {4} Ordinarily the committee shall meet at least twice a year. The first meeting shall be convened in the first week of January each year at which the committee will consider the list of question Paper Setters, Examiners, etc., prepared by the Boards of Studies and vetted by the Controller of Examinations.

- {5} After due scrutiny of the list, the Committee may recommend the list to the Syndicate with or without modifications provided, however that there shall be a choice of three names to be considered for the appointment of every Question Paper Setter and Examiner in respect of all the papers of all the examinations.

210. [1] The list of examiners vetted by the Committee shall be placed before the Syndicate for ratification and approval. Thereafter it shall be competent for the Vice-Chancellor to appoint specific examiners for specific papers from out of the said list :

Powers of
Syndicate

Provided that in urgent cases it shall be competent for the Vice-chancellor to appoint the examiners outside the panel approved by the Syndicate.

- {2} It shall be competent for the Syndicate to frame from time to time such rules and issue such directions as it may deem fit for the guidance of all Question Paper Setters, Examiners and Boards

of Examiners appointed under the provisions of these Statutes and such directions and instructions issued in all matters relating to the conduct of examinations shall be final.

CHAPTER II

Conduct of Examinations

211. [1] All examinations shall be held at such places as the Syndicate may decide from time to time. It shall be the responsibility of the affiliated colleges to make all arrangements for conducting the University examination in respect of the candidates both sent up by the Colleges for appearing in the University examination and those ordered by the Syndicate to take the examinations at that college centre. The centre Superintendent and Invigilators for the University examination should be provided by the concerned affiliated colleges ordinarily from the teaching staff of the colleges. It shall also be the duty and responsibility of the colleges to take the assistance of the local administrative authorities in case they need such help for conducting the examinations properly.
- Place where examination held.
- [2] A list of centres at which examinations will be held during the academic year shall be published in the Gazette annually well before the dates of the examinations;
- Provided that the Syndicate may withdraw any centre from the said list or add any new centre to it;
- Provided further that Syndicate may in its discretion direct any examinee or group of examinees to appear at any centre which the University may decide without assigning any reason.
- [3] At all examination centres question papers shall be given out to all candidates for the same examination on the same day and at the same hour except for practical and oral examinations.

- [4] The different University examinations shall commence according to the Schedule of these Statutes.
