## **PHILOSOPHY**

**The University addresses to the problems and find the prospects to improve the competency and employability capacity in the students who need to take up a livelihood immediately.**

### **AIMS AND OBJECTIVES:**

- 1. To develop the curriculum and to design the core and elective subjects to start with integration of higher secondary learning (consistent with NCERT Syllabus) and then build the content to the desired level accepted nationally and internationally.**
- 2. The suggested prescribed books and reference books where reference books are more in number to broaden the knowledge base of students in general.**
- 3. The practical papers are made relevant to theory content. Examination through tests and practical's take care of evaluating the extent to which both the border and local objectives are achieved by the students.**

## **INTRODUCTION**

Utkal University as the mother university of all state Universities of Odisha, to its pride, has 2 campuses (including **1 rural campus** in Chandikhol), more than **330 affiliated institutions with 28 PG teaching departments** running more than 40 courses (including self-financing) and torch bearer for nearly 2,00,000 students in an academic year

University thrives not only for quantitative expansion but also believe in qualitative changes in both formative and summative assessment of students' academic achievement in general.

Changes in process –

After experiencing the overall impact of COVID-19 pandemic there is paradigm shift in the examination and evaluation in tune with COVID appropriate behavior and catering to the need of the time: **Convenience, Comfort & Care** for safety and ensuring good health of the students. Under the support of World Bank 'OHEPEE' program logistic support has been developed so that the offline examination will be replaced by online system as and when necessary. The exam related activities from data capturing of students post admission, filling up of forms to publication of result there has been a change **from institutions centric approach to student centric provision** in the online platform.

The examination system of the University has been designed keeping in view the best available options of evaluation & certification along with their global acceptability. The basic principle of the system is that it is “scientific, objective and transparent” with least possibility of subjectivity caused due to the individual evaluator, particular subject or a particular batch of students.

### **Reformative Achievement:**

1. Introduction of project work for meritorious students (above grade B) and research methodology in UG and PG courses in the Final Semester as per model CBCS syllabus will **increase research activity** and creativity among students. It will **boost innovations** and new ideas which will enhance the **quality of education**.

2. As a part of **e-Administration**, the restructuring of Examination sections to online platform will address students' problem in time-bound manner at par with the **5T (team work, technology, transparency, transformation and time limit) philosophy** of the state govt. This will facilitate different services to students from anywhere anytime and bring same type of services under one umbrella.
3. The cost-effective **online test** will facilitate in **smooth conduct of examination** and will be more convenient for the students - particularly to students from distant remote areas and other states.
4. Complete **digitization of certificate** and integration with NATIONAL ACADEMIC DEPOSITORY (NAD) for timely disposal of certificates after publication of result and to make the verification and authentication, transparent and time saving.

**ANNUAL REPORT**

**(2017-18)**

**CONTROLLER OF EXAMINATIONS  
UTKAL UNIVERSITY  
VANI VIHAR, BHUBANESWAR-751004**

Submitted on 15/06/2022

## **PHILOSOPHY**

**The University addresses to the problems and find the prospects to improve the competency and employability capacity in the students who need to take up a livelihood immediately.**

### **AIMS AND OBJECTIVES:**

- 1. To develop the curriculum and to design the core and elective subjects to start with integration of higher secondary learning (consistent with NCERT Syllabus) and then build the content to the desired level accepted nationally and internationally.**
- 2. The suggested prescribed books and reference books where reference books are more in number to broaden the knowledge base of students in general.**
- 3. The practical papers are made relevant to theory content. Examination through tests and practical's take care of evaluating the extent to which both the border and local objectives are achieved by the students.**

## **INTRODUCTION**

Utkal University as the mother university of all state Universities of Odisha, to its pride, has 2 campuses (including **1 rural campus** in Chandikhol), more than **330 affiliated institutions with 28 PG teaching departments** running more than 40 courses (including self-financing) and torch bearer for nearly 2,00,000 students in an academic year

University thrives not only for quantitative expansion but also believe in qualitative changes in both formative and summative assessment of students' academic achievement in general.

Changes in process –

After experiencing the overall impact of COVID-19 pandemic there is paradigm shift in the examination and evaluation in tune with COVID appropriate behavior and catering to the need of the time: **Convenience, Comfort & Care** for safety and ensuring good health of the students. Under the support of World Bank 'OHEPEE' program logistic support has been developed so that the offline examination will be replaced by online system as and when necessary. The exam related activities from data capturing of students post admission, filling up of forms to publication of result there has been a change **from institutions centric approach to student centric provision** in the online platform.

The examination system of the University has been designed keeping in view the best available options of evaluation & certification along with their global acceptability. The basic principle of the system is that it is "scientific, objective and transparent" with least possibility of subjectivity caused due to the individual evaluator, particular subject or a particular batch of students.

### **Reformative Achievement:**

1. Introduction of project work for meritorious students (above grade B) and research methodology in UG and PG courses in the Final Semester as per model CBCS syllabus will **increase research activity** and creativity among students. It will **boost innovations** and new ideas which will enhance the **quality of education**.

2. As a part of **e-Administration**, the restructuring of Examination sections to online platform will address students' problem in time-bound manner at par with the **5T (team work, technology, transparency, transformation and time limit) philosophy** of the state govt. This will facilitate different services to students from anywhere anytime and bring same type of services under one umbrella.
3. The cost-effective **online test** will facilitate in **smooth conduct of examination** and will be more convenient for the students - particularly to students from distant remote areas and other states.
4. Complete **digitization of certificate** and integration with NATIONAL ACADEMIC DEPOSITORY (NAD) for timely disposal of certificates after publication of result and to make the verification and authentication, transparent and time saving.

VANI VIHAR, BHUBANESWAR**

**ANNUAL REPORT**

**(2018-19)**

**CONTROLLER OF EXAMINATIONS  
UTKAL UNIVERSITY  
VANI VIHAR, BHUBANESWAR-751004**

Submitted on 15/06/2022

## **PHILOSOPHY**

**The University addresses to the problems and find the prospects to improve the competency and employability capacity in the students who need to take up a livelihood immediately.**

### **AIMS AND OBJECTIVES:**

- 1. To develop the curriculum and to design the core and elective subjects to start with integration of higher secondary learning (consistent with NCERT Syllabus) and then build the content to the desired level accepted nationally and internationally.**
- 2. The suggested prescribed books and reference books where reference books are more in number to broaden the knowledge base of students in general.**
- 3. The practical papers are made relevant to theory content. Examination through tests and practical's take care of evaluating the extent to which both the border and local objectives are achieved by the students.**

## **INTRODUCTION**

Utkal University as the mother university of all state Universities of Odisha, to its pride, has 2 campuses (including **1 rural campus** in Chandikhol), more than **330 affiliated institutions with 28 PG teaching departments** running more than 40 courses (including self-financing) and torch bearer for nearly 2,00,000 students in an academic year

University thrives not only for quantitative expansion but also believe in qualitative changes in both formative and summative assessment of students' academic achievement in general.

Changes in process –

After experiencing the overall impact of COVID-19 pandemic there is paradigm shift in the examination and evaluation in tune with COVID appropriate behavior and catering to the need of the time: **Convenience, Comfort & Care** for safety and ensuring good health of the students. Under the support of World Bank 'OHEPEE' program logistic support has been developed so that the offline examination will be replaced by online system as and when necessary. The exam related activities from data capturing of students post admission, filling up of forms to publication of result there has been a change **from institutions centric approach to student centric provision** in the online platform.

The examination system of the University has been designed keeping in view the best available options of evaluation & certification along with their global acceptability. The basic principle of the system is that it is “scientific, objective and transparent” with least possibility of subjectivity caused due to the individual evaluator, particular subject or a particular batch of students.

### **Reformative Achievement:**

1. Introduction of project work for meritorious students (above grade B) and research methodology in UG and PG courses in the Final Semester as per model CBCS syllabus will **increase research activity** and creativity

among students. It will **boost innovations** and new ideas which will enhance the **quality of education**.

2. As a part of **e-Administration**, the restructuring of Examination sections to online platform will address students' problem in time-bound manner at par with the **5T (team work, technology, transparency, transformation and time limit) philosophy** of the state govt. This will facilitate different services to students from anywhere anytime and bring same type of services under one umbrella.
3. The cost-effective **online test** will facilitate in **smooth conduct of examination** and will be more convenient for the students - particularly to students from distant remote areas and other states.
4. Complete **digitization of certificate** and integration with NATIONAL ACADEMIC DEPOSITORY (NAD) for timely disposal of certificates after publication of result and to make the verification and authentication, transparent and time saving.

CONTROLLER OF EXAMINATIONS

**UTKAL UNIVERSITY  
VANI VIHAR, BHUBANESWAR**

**ANNUAL REPORT**

**(2019-20)**

**CONTROLLER OF EXAMINATIONS  
UTKAL UNIVERSITY  
VANI VIHAR, BHUBANESWAR-751004**

Submitted on 15/06/2022

## **PHILOSOPHY**

**The University addresses to the problems and find the prospects to improve the competency and employability capacity in the students who need to take up a livelihood immediately.**

### **AIMS AND OBJECTIVES:**

- 1. To develop the curriculum and to design the core and elective subjects to start with integration of higher secondary learning (consistent with NCERT Syllabus) and then build the content to the desired level accepted nationally and internationally.**
- 2. The suggested prescribed books and reference books where reference books are more in number to broaden the knowledge base of students in general.**
- 3. The practical papers are made relevant to theory content. Examination through tests and practical's take care of evaluating the extent to which both the border and local objectives are achieved by the students.**

## **INTRODUCTION**

Utkal University as the mother university of all state Universities of Odisha, to its pride, has 2 campuses (including **1 rural campus** in Chandikhol),

more than **330 affiliated institutions with 28 PG teaching departments** running more than 40 courses (including self-financing) and torch bearer for nearly 2,00,000 students in an academic year

University thrives not only for quantitative expansion but also believe in qualitative changes in both formative and summative assessment of students' academic achievement in general.

Changes in process –

After experiencing the overall impact of COVID-19 pandemic there is paradigm shift in the examination and evaluation in tune with COVID appropriate behavior and catering to the need of the time: **Convenience, Comfort & Care** for safety and ensuring good health of the students. Under the support of World Bank 'OHEPEE' program logistic support has been developed so that the offline examination will be replaced by online system as and when necessary. The exam related activities from data capturing of students post admission, filling up of forms to publication of result there has been a change **from institutions centric approach to student centric provision** in the online platform.

The examination system of the University has been designed keeping in view the best available options of evaluation & certification along with their global acceptability. The basic principle of the system is that it is "scientific, objective and transparent" with least possibility of subjectivity caused due to the individual evaluator, particular subject or a particular batch of students.

### **Reformative Achievement:**

1. Introduction of project work for meritorious students (above grade B) and research methodology in UG and PG courses in the Final Semester as per model CBCS syllabus will **increase research activity** and creativity among students. It will **boost innovations** and new ideas which will enhance the **quality of education**.
2. As a part of **e-Administration**, the restructuring of Examination sections to online platform will address students' problem in time-bound manner at par with the **5T (team work, technology, transparency, transformation and time limit) philosophy** of the state govt. This will facilitate different services to students from anywhere anytime and bring same type of services under one umbrella.

3. The cost-effective **online test** will facilitate in **smooth conduct of examination** and will be more convenient for the students - particularly to students from distant remote areas and other states.
4. Complete **digitization of certificate** and integration with NATIONAL ACADEMIC DEPOSITORY (NAD) for timely disposal of certificates after publication of result and to make the verification and authentication, transparent and time saving.

**CONTROLLER OF EXAMINATIONS  
UTKAL UNIVERSITY  
VANI VIHAR, BHUBANESWAR-751004**

Submitted on 15/06/2022

## **PHILOSOPHY**

**The University addresses to the problems and find the prospects to improve the competency and employability capacity in the students who need to take up a livelihood immediately.**

## **AIMS AND OBJECTIVES:**

- 1. To develop the curriculum and to design the core and elective subjects to start with integration of higher secondary learning (consistent with NCERT Syllabus) and then build the content to the desired level accepted nationally and internationally.**
- 2. The suggested prescribed books and reference books where reference books are more in number to broaden the knowledge base of students in general.**
- 3. The practical papers are made relevant to theory content. Examination through tests and practical's take care of evaluating the extent to which both the border and local objectives are achieved by the students.**

## **INTRODUCTION**

Utkal University as the mother university of all state Universities of Odisha, to its pride, has 2 campuses (including **1 rural campus** in Chandikhol), more than **330 affiliated institutions with 28 PG teaching departments** running more than 40 courses (including self-financing) and torch bearer for nearly 2,00,000 students in an academic year

University thrives not only for quantitative expansion but also believe in qualitative changes in both formative and summative assessment of students' academic achievement in general.

Changes in process –

After experiencing the overall impact of COVID-19 pandemic there is paradigm shift in the examination and evaluation in tune with COVID appropriate behavior and catering to the need of the time: **Convenience, Comfort & Care** for safety and ensuring good health of the students. Under the support of World Bank 'OHEPEE' program logistic support has been developed so that the offline examination will be replaced by online system as and when necessary. The exam related activities from data capturing of students post admission, filling up of forms to publication of result there has been a change **from institutions centric approach to student centric provision** in the online platform.

The examination system of the University has been designed keeping in view the best available options of evaluation & certification along with their global acceptability. The basic principle of the system is that it is “scientific, objective and transparent” with least possibility of subjectivity caused due to the individual evaluator, particular subject or a particular batch of students.

### **Reformative Achievement:**

1. Introduction of project work for meritorious students (above grade B) and research methodology in UG and PG courses in the Final Semester as per model CBCS syllabus will **increase research activity** and creativity among students. It will **boost innovations** and new ideas which will enhance the **quality of education**.
2. As a part of **e-Administration**, the restructuring of Examination sections to online platform will address students' problem in time-bound manner at par with the **5T (team work, technology, transparency,**

**transformation and time limit) philosophy** of the state govt. This will facilitate different services to students from anywhere anytime and bring same type of services under one umbrella.

3. The cost-effective **online test** will facilitate in **smooth conduct of examination** and will be more convenient for the students - particularly to students from distant remote areas and other states.
4. Complete **digitization of certificate** and integration with NATIONAL ACADEMIC DEPOSITORY (NAD) for timely disposal of certificates after publication of result and to make the verification and authentication, transparent and time saving.
