Webinar on Cyber Safety and Security in the Digital World
July 2, 2021 (Friday), 11am-1pm IST

Organized By Google Meet
Dept. of Computer Science & Applications & IQAC
Utkal University Bhubaneswar

Cyber Safety can be defined as a set of measures meant to promote the safe usage of the internet and prevent exposure to internet malware, fraud, or theft. **Cyber Security** is the practice of defending computers, servers, mobile devices, electronic systems, networks, and data from malicious attacks. It's also known as information technology security or electronic information security. The term applies in a variety of contexts, from business to mobile computing, and can be divided into a few common categories.
