Madam/Sir,

I am writing this to request you to provide opportunity to our Postgraduate and M.Phil students through Summer Internship/Summer Project to get first-hand or practical exposure on different social and health related issues that your organization has expertise in.

For your kind information, our students are trained in wider social issues and are exposed to a number of social science and health related research methodologies. Many of them have already got field exposure and have carried out ethnographic fieldwork at undergraduate and postgraduate levels. A work experience at your esteem organization and under the guidance of your experienced staff will help them to become work-ready. I am sure this opportunity will be mutually beneficial to us and to your organization.

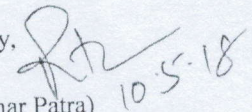

I take this opportunity to recommend the following students to work as an intern in your organization for a period of 3 to 4 weeks as permissible by you. We do not expect any remuneration for them, however, if you have such opportunity to support them partially or fully that will be appreciated.
