Sir,

Thank you so much for your invaluable motivational lecture on career prospects in Statistics on 18th last. It would, I am confident, go a long way in shaping future of our students. Thanks are also due to other distinguished faculty members present on the occasion, especially to Dr. Navin Chandra.

I understand your field of specialisation is Stochastic Modeling and..... May I recommend your name to our VC for examining a Ph.D. thesis on my research area, i.e., Sampling Theory of Surveys with Applications? Elementary knowledge in sampling will suffice in examining the thesis. This is the first thesis submitted under my supervision. I forgot to discuss with you on this topic personally.

Will you mind sending the lecture(soft copy)? It would be of help to me.

Regards,

K B Panda

Thank you for your nice words on your visit to our department. In fact we are thankful to you people for choosing our university for your study tour. I will definitely do your requirement regarding your research request. You go ahead with your proposal.

I hope we will have good academic and professional journey in days to come.

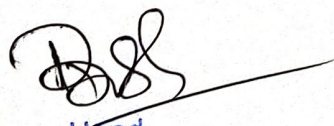

Convey my wishes to all your colleagues and students.

Kind regards

Tirupathi Rao
