Payment

Payment is to be made in the form of demand draft (for outstation participants / sponsors / advertisers) or account payee cheques (for local participants only) in favour of Alumni Association, Department of Geology, Utkal University, payable at Bhubaneswar. Payment in cash to the Treasurer against formal receipt is also acceptable.

Date, Venue & Programme

Date: 11 March 2023

Venue: The Alumni Hall (1st Floor) of Post Graduate Department of Geology, Utkal University, Vani Vihar, Bhubaneswar, Odisha.

The national seminar will spread over one-day, comprising of two technical sessions. The comprehensive programme along with time schedules will feature in the final circular.

General Information:

Bhubaneswar, The Capital city of Odisha State is well connected by air and rail with all metropolitan cities of India. The Sun temple at Konarak, the famous Lord Jagannath temple and sea beach at Puri are 60 km away. The largest brackish water lagoon Chilika is within two hours drive from Bhubaneswar. There are a number of good hotels at Bhubaneswar with 3 to 5 star ratings. Requests for arrangement of accommodation with specific dates can be made separately. The weather in Bhubaneswar during March is pleasant with the day's high of around 30°C and low of 22°C.

National Seminar on VISIONS IN GEOLOGICAL SCIENCES -2023

Organized by
**DEPARTMENT OF GEOLOGY,
UTKAL UNIVERSITY
and
ALUMNI ASSOCIATION**

11th March 2023

All enquiries and communications should be addressed to:

Dr. Santiswarup Sahoo

Organising Secretary,
P. G. Department of Geology
Utkal University, Vani Vihar,
Bhubaneswar-751004, Odisha
Mob: 9616458048
E-mail: geologyutkaluniversity@gmail.com

Dr. Kirti Ranjan Mallick

Co-Organising Secretary
Mob. : 7873276818
E-mail: kirtigeology@gmail.com

Prof. D. S. Pattanaik

Head of the Department,
P. G. Department of Geology
Utkal University, Vani Vihar,
Bhubaneswar-751004, Odisha

**Bhubaneswar - 751 004
Odisha, India**

Preamble

The ongoing low to moderate seismicity along the Himalayan arc, gradual increasing seismicity level of South India and natural hazards like flood and cyclone along eastern parts of India has raised concern to study the earth processes thoroughly. The country is also shifting its goal to make our economy much stronger with investigating for resources in our marine realm too. All these require detailed geological studies: geochemistry, geophysics, hydrogeology, paleontology, remote sensing and environmental geology to mention a few.

The sub themes of the Seminar are as follows:

- Structural Geology and Tectonics
- Petrology and the role of Temperature and Pressure
- Engineering Geology and Geotechnology
- Palaeontology and Stratigraphy
- Hydrogeology
- Hydrocarbon and Gas hydrates
- Mineral Exploration and Exploitation
- Mineral Development and Mineral administration
- Education in Earth Sciences
- Natural calamities and its Mitigation
- Remote Sensing and GIS for Planning and Development
- Geo-environmental issues and Management

Call for Papers

Registration

Sponsored participants	Rs.1200/-
Non-sponsored Academicians/Scientists/ Professionals of Educational Govt. departments/ Public and Private Undertakings/R & D institutions	Rs.1000/-
Research Scholars	Rs.600/-
Students of Geology & Earth Science	Rs.350/-
Foreign Participants	US \$ 100/-

SPONSORSHIP AND ADVERTISEMENT

Sponsorship	INR 1,00,000/- US\$ 1500
